

Grid, Go Green

Can India's Growth Be Powered Differently?

India is building for greater scale with **more industries, more cities, more infrastructure, more mobility, more digitalisation**. And with each comes a growing need for reliable power.

But as the economy expands, the question is no longer simply about generating more electricity. It is about building an energy system capable of supporting growth while progressively becoming cleaner.

Can rising energy demand and cleaner growth move **together**?

Can the grid become **stronger** as the energy it carries becomes **greener**?

Can renewable energy become an **integral part** of everyday infrastructure?

And what **infrastructure** will make this transition possible?

These are no longer questions for tomorrow.

They are shaping the infrastructure choices India is making today.

Responsibility

India's development ambitions and its energy transition are increasingly intertwined. The country needs infrastructure that can carry more power, while simultaneously creating the capacity to integrate more renewable energy into the system.

This makes the transition broader than renewable generation alone. It requires a stronger electrical network, greater grid connectivity, and infrastructure capable of connecting new clean-energy sources with the places power is ultimately consumed.

Stronger Grid

Reliable infrastructure for growing power needs

Cleaner Energy

Greater integration of renewable power

Sustainable Growth

Infrastructure that connects the two

The grid must grow. And it must go green.

The energy transition is not only about generating greener power. It is also about building the infrastructure that enables it to flow.

Grid, Go Green

Building on our core. Expanding into the opportunity.

Grid, Go Green captures the evolution of Current Infraprojects' Electrical EPC capabilities in step with India's changing energy landscape. The Company's strong foundation in electrical infrastructure continues to remain at the heart of its growth, while its enhanced focus on Solar expands the scope of the opportunities it can address.

From building and executing critical electrical infrastructure to enabling renewable power through Solar EPC, Current Infraprojects is bringing its execution capabilities closer to the emerging needs of the power ecosystem.

The Company's Solar business therefore complements, rather than replaces, its established Electrical EPC strengths, creating a broader platform to participate in India's growing power and energy infrastructure opportunity.

As the country adds significant renewable capacity while simultaneously strengthening its transmission and distribution network, both conventional electrical infrastructure and renewable-energy infrastructure will remain essential.

Current Infraprojects is well positioned at this intersection, combining its established Electrical EPC expertise with an expanding Solar portfolio.

Grid, Go Green thus represents a natural progression of the Company's capabilities, continuing to build the electrical infrastructure that powers India, while increasingly contributing to the clean-energy infrastructure that will power its future.

As India's power ecosystem evolves, our role is evolving with it, strengthening the infrastructure of today while building capabilities for the energy systems of tomorrow.

*Strengthening what powers today.
Enabling what will power tomorrow.*

The Grid Remains

Corporate Overview

Company at a Glance

What began in 2013 with a focus on localised electrical and civil works in Rajasthan has steadily evolved into a broader infrastructure platform.

The early years were defined by building a strong foundation in electrical infrastructure, utility shifting and government sub-contracts. As capabilities grew, the Company expanded into water infrastructure and specialised MEP services, widening its role across the infrastructure ecosystem.

A significant milestone came with the establishment of the MEC Test Lab, bringing quality testing and control in-house and strengthening the Company's execution capabilities. This was followed by the Company's strategic entry into Solar EPC, adding a renewable-energy dimension to its established infrastructure expertise.

Today, Current Infraprojects Limited combines its core capabilities across electrical infrastructure, utilities, railway electrification, water and civil works with growing opportunities in Solar EPC and RESCO. Its projects have expanded across multiple states, supported by centralised procurement, ERP-enabled project monitoring and a steadily strengthening execution platform.

**Incorporated 2013**

**Headquartered in Jaipur**

**Listed on NSE Emerge in FY26**

**IPO subscribed about 380 times**

**Mission**

Fostering a culture of empowerment where innovation thrives and exceptional service is delivered.

**Vision**

Global EPC leadership through quality, value engineering and total customer satisfaction.

Our Journey

From a focused EPC contractor to an integrated infrastructure solutions provider, the Company's journey has been shaped by strategic diversification, disciplined execution and an unwavering commitment to engineering excellence. Over the years, CIPL has continuously expanded its capabilities, strengthened its expertise and embraced emerging opportunities to address India's evolving infrastructure requirements. Each milestone reflects the Company's continued efforts to strengthen its capabilities, expand its service portfolio and deliver greater value to its stakeholders.

Our Presence. Our Partnerships

Our Presence

From a regional base to a wider execution footprint
 Our roots in Rajasthan provided the foundation for building our Electrical EPC capabilities. Over time, we have extended our presence into Kerala, Tamil Nadu, Maharashtra and Karnataka, broadening our addressable market and reducing dependence on any single geography.

This expanding footprint enables us to participate in opportunities across Electrical EPC, Solar EPC and allied infrastructure while building execution experience across different markets.

Relationships built through execution

Our client relationships span utilities, PSUs, government institutions and private-sector organisations. These relationships have been built through project execution, technical capability and our ability to work across diverse project requirements. From electrical distribution and infrastructure projects to solar and RESCO engagements, the growing breadth of our customer base reflects our evolution into a more diversified EPC platform.

Chairman's Message

Dear Shareholders,

When we began building Current Infraprojects, we were focused on one thing: earning the right to take on bigger and better opportunities.

That meant starting with execution, learning the business from the ground up, building capabilities, earning customer trust and reinvesting in the organisation. Over the years, that approach has helped us grow from an execution-focused infrastructure company into a more diversified EPC platform.

FY26 was a year when the strength of that journey became visible in our numbers. Our revenue from operations grew 76% to ₹160 crore, EBITDA increased 58% to ₹23 crore, and PAT grew 49% to ₹14 crore. More importantly, our order book reached a record ₹305 crore, giving us significantly greater visibility as we enter the next year.

For me, however, the most important story of FY26 is not one number. It is the quality and diversity of the platform we are building.

Building More Than One Engine of Growth

Infrastructure is changing, and so must an infrastructure company. Our core capabilities in electrical infrastructure, utilities and EPC remain fundamental to CIPL. At the same time, we have consciously expanded into areas where we see long-term structural opportunities. The results of that strategy were visible this year.

Solar EPC revenue grew nearly four times, making it our largest revenue contributor in FY26. Our Water EPC business also continued to grow, while our Electrical EPC business remained an important part of our execution base.

But diversification, in our view, is not about simply adding businesses. It is about creating multiple, complementary engines of growth. That is why the momentum in our core Electrical Infrastructure & Utilities business is equally encouraging.

Grid Go Green is not about leaving our foundation behind. It is about taking that foundation forward.

During the year, we secured approximately ₹100 crore of government orders from Jaipur Discom and Jodhpur Discom. Our active project pipeline now has an increased contribution from Electrical Infrastructure & Utilities, demonstrating that the core business is regaining strong momentum as we move into FY27.

From EPC Execution to a Broader Platform

A significant step during the year was the establishment of our RESCO platform through dedicated special purpose vehicles backed by long-term Power Purchase Agreements. While EPC execution will continue to remain the cornerstone of our business, the RESCO model enables us to gradually build a portfolio of recurring revenue-generating assets, enhancing the resilience of our business model and creating sustainable long-term value.

Grid, Go Green

The **Grid** represents the foundation on which CIPL has been built: electrical infrastructure, distribution, utilities and electrification.

Green represents the expanding opportunity in renewable energy, Solar EPC and RESCO.

And **Go** represents what matters most to us: the willingness to keep moving.

-To build on our strengths.

-To diversify intelligently.

-To enter new opportunities.

-To execute better.

And to grow with India's infrastructure and energy needs.

Grid, Go Green is not about leaving our foundation behind. It is about taking that foundation forward.

The Opportunity Ahead

India's infrastructure opportunity is becoming broader and deeper. Power infrastructure needs to expand. Distribution networks need strengthening. Railway electrification is progressing. Renewable energy is scaling rapidly. And the integration of storage will increasingly become important to the country's energy ecosystem. For CIPL, this creates an opportunity across both our established infrastructure businesses and our newer energy platforms.

Every milestone we have reached has been built by people. I thank our employees, whose commitment and hard work continue to drive our execution. I thank our customers who have given us the opportunity to grow with them. I am equally grateful to our suppliers, lenders, business partners and regulatory authorities for their continued support.

I extend my appreciation to our Board for its guidance and oversight, and to our shareholders for placing their trust in us at an important stage of our journey. We have come a long way from where we started. Yet, I believe, the more exciting part of our journey is still ahead.

We have a stronger balance sheet, a larger order book, a more diversified business, an expanding renewable-energy platform and a growing presence across India.

But above all, we have the confidence that comes from having built our foundation carefully. We will carry that confidence forward with humility, discipline and ambition.

Warm regards,

Sunil Singh Gangwar

Chairman and Managing Director

CEO's Message

Dear Shareholders,

FY26 was a year of meaningful progress for Current Infraprojects Limited. We strengthened our operating platform, expanded our business mix and entered a new phase of scale following our listing on the NSE Emerge.

The numbers reflect this progress. Revenue from operations grew 76% to ₹160 crore, EBITDA increased 58% to ₹23 crore, and PAT grew 49% to ₹14 crore. Our order book stood at ₹305 crore at the close of the year, providing a strong base for FY27.

More importantly, we delivered this growth while maintaining a healthy return profile. Our Return on Equity stood at 27.2% in FY26, reflecting our focus on deploying capital efficiently as the business scales.

A More Diversified Business

One of the key priorities in recent years has been to build a business that is diversified not only across segments, but also across growth opportunities.

FY26 demonstrated the progress we are making on this front. Solar EPC revenue increased nearly four times to ₹96 crore, while our Electrical Infrastructure & Utilities and Water businesses continued to provide a strong execution base.

Our order pipeline further reflects this balance. Of the approximately ₹305 crore active pipeline, Electrical Infrastructure & Utilities accounts for 54%, Solar & Renewable for 28%, with the balance coming from Water, Utility and Shifting projects.

Execution That Scales

As the scale of our business increases, execution discipline becomes increasingly important.

During the year, we continued to strengthen project monitoring, procurement planning, resource utilisation and working capital management. Our in-house testing capabilities, owned equipment and digital project management systems provide greater control over quality, timelines and costs. These capabilities are particularly important as we move towards larger and more complex projects. Our objective is to make execution a scalable capability, not simply a project-level strength.

Core Business, Renewed Momentum

Our Electrical Infrastructure & Utilities business remains an important part of our growth platform.

During the year, we secured approximately ₹100 crore of orders from Jaipur Discom and Jodhpur Discom, covering feeder segregation and household electrification. These wins strengthen our execution visibility for FY27 and demonstrate the continuing opportunity in India's power distribution infrastructure.

With increasing investments in grid strengthening and power infrastructure, we believe our established capabilities position us well to participate in this opportunity.

Building a Recurring Revenue Layer

Alongside our EPC businesses, we are building a second dimension to our model through RESCO.

During FY26, we commissioned four RESCO solar plants backed by long-term PPAs. While the contribution to current-year revenue remains modest, the portfolio is expected to generate more than ₹6 crore of annual recurring revenue under long-term agreements. This model allows us to move beyond project execution and gradually build a portfolio of long-term revenue-generating assets.

We are also evaluating RESCO-BESS and integrated energy solutions, which can further expand our participation in the evolving renewable-energy ecosystem.

Growth With Capital Discipline

As we scale, our focus remains firmly on the quality of growth. We will continue to be selective in project participation, closely manage working capital and allocate capital towards opportunities that can generate sustainable returns.

The successful IPO has strengthened our financial platform and gives us greater flexibility to participate in larger opportunities. But capital availability must always be accompanied by capital discipline. Our ambition is to grow the business while protecting the returns generated on the capital entrusted to us.

Our geographical expansion is also progressing. While Rajasthan remains our anchor market, Kerala has emerged as a significant growth market, with an expanding project presence across Karnataka, Maharashtra and Tamil Nadu.

Looking Ahead

We enter FY27 with a stronger platform and greater visibility.

Our focus will be on improving execution cycles, strengthening the core EPC business, scaling Solar EPC and RESCO, expanding our geographic presence and evaluating emerging opportunities in integrated energy and storage solutions. We also see meaningful opportunities across electrical infrastructure, distribution strengthening, railway electrification and utility projects.

Warm regards,

Chetan Dadhich

Chief Executive Officer

We are also evaluating RESCO-BESS and integrated energy solutions, which can further expand our participation in the evolving renewable-energy ecosystem.

Board of Directors

Sunil Singh Gangwar
Chairman & Managing Director

Mr. Sunil Singh Gangwar leads Current Infraprojects with a focus on strategic growth, execution excellence and long-term value creation. He has played a key role in shaping the Company's evolution and expanding its presence. Ex-PWD Rajasthan veteran; spearheaded landmark state infra projects (e.g., Rajasthan Vidhan Sabha). B.E., Electrical Engineering.

Devvrath Singh
Whole-Time Director

Mr. Devvrath Singh is actively involved in the Company's management and growth initiatives. He contributes to business development, project execution and the expansion of Current Infraprojects across emerging infrastructure opportunities. B.E. (Hons), Univ. of Queensland with core engineering experience (Ex-Gravita India)

Satyavrat Singh
Whole-Time Director

Mr. Satyavrat Singh supports the Company's operational and strategic initiatives, with a focus on strengthening execution capabilities and business growth. He contributes to the Company's efforts to build a scalable and diversified EPC platform.

Sujata Gangwar
Non-Executive Director

Ms. Sujata Gangwar contributes to its oversight and governance processes. Her association supports the Company's emphasis on responsible and balanced decision-making. M.Sc., Univ. of Jodhpur.

Dr. R. Venkateswaran
Independent Director

Dr. R. Venkateswaran brings an independent perspective to the Board, strengthening oversight and governance. His experience contributes to objective deliberations and the Company's evolving governance framework. Retired IAS Officer & Ph.D. Former Additional Chief Secretary (Rajasthan) bringing elite regulatory oversight and government compliance expertise.

CA Deepak Gupta
Independent Director

CA Deepak Gupta brings financial and professional expertise to the Board, contributing to financial oversight, governance and strategic decision-making. His experience strengthens the Company's focus on accountability and prudent financial management. Fellow ICAI & Senior CA Partner.

Mukesh Kumar Jain
Independent Director

Mr. Mukesh Kumar Jain contributes independent judgement and professional experience to the Board. His perspective supports effective oversight, governance and informed decision-making as the Company continues to scale. Ex-Chief General Manager, NHA (IIT Delhi Alumnus). Four decades of master-level infrastructure execution and highway development (Ex-IRCON).

Our Business

Resilient infrastructure, sustainable growth

Current Infraprojects is an integrated, multi-disciplinary EPC platform delivering infrastructure and energy solutions across the electrical, renewable-energy, water and civil domains. Two complementary pillars carry the business: **core EPC verticals**, which design, procure and construct on a turnkey basis, and **engineering and consulting services**, which extend that expertise into advisory, testing and project management.

Together they give clients a single-window EPC solution, from the civil foundations beneath a solar plant to the systems within it and oversight of the whole project. The **RESCO platform** complements both: an asset-ownership model that develops, owns and operates renewable-energy assets under long-term power purchase agreements, turning one-time construction into decades of predictable, recurring revenue.

Business Review and Strategy

RESCO
Long-term renewable asset ownership

- Four wholly-owned SPVs
- Assets operated under 25-year power purchase agreements

Electrical EPC

The founding franchise, re-armed by RDSS

Electrical EPC is where Current Infraprojects began: utility shifting, substations and distribution networks for highway developers and state utilities. FY26 revenue moderated with project timing, but the segment now holds the largest share of the order book on the back of centrally funded RDSS mandates.

What we do

- ✓ Turnkey design, procurement and construction of utility infrastructure
- ✓ Substation construction, overhead lines and cabling
- ✓ Highway utility shifting for GR Infraprojects, Ashoka Buildcon and L&T
- ✓ ERP-based project monitoring and centralised procurement, Kerala to Jammu

How RDSS money flows

From grid to doorstep: Where CIPL works along the electrical value chain

Segment snapshot

50+ MW

Cumulative capacity commissioned

₹200+ cr

Solar and BESS tenders under bid

What we do

- Turnkey design and execution of ground-mounted and rooftop solar plants
- Government schemes: PM-KUSUM Component C and PM Surya Ghar Yojana
- Solar for railway platforms, toll plazas, institutions and Border Security Force outposts
- On-grid plants, including the 7.52 MWp project commissioned under PM-KUSUM Component C
- Rooftop solar for public infrastructure: 585.6 kW for THDC India; ongoing installations for South Western Railway, Mysore Division
- Robotic panel cleaning to lift generation efficiency

RESCO: the annuity platform

Growth and scale

- Flagship work
- 7.52 MWp on-grid plant under PM-KUSUM Component C; 585.6 kW grid-connected rooftop for THDC India; solar on platforms for Indian Railways.
 - Successfully commissioned a 1.8 MW Solar Power Plant at IIT Dhanbad and installed 3 MW+ Solar Power Plants across multiple Railway Stations in Rajasthan, Maharashtra, Uttar Pradesh, and Karnataka, reinforcing our commitment to clean energy and sustainable infrastructure.

Looking ahead

- About ₹200 crore of solar and BESS tenders under evaluation;
- Solar plus battery storage bids extend the offer towards round-the-clock power

- Develop, own and operate solar assets through dedicated SPVs; clients bear no upfront capital cost
- 25-year power purchase agreements with five-year extension options; in-house operations and maintenance for the asset's life
- Institutional and government counterparties: Jodhpur Discom under PM-KUSUM and IIT (ISM) Dhanbad
- Looking ahead: bidding on RESCO-BESS opportunities of about ₹50 to 80 crore, extending the annuity model to round-the-clock power

FY26 was the operational debut: all four SPVs were commissioned through the year and contributed an inaugural ₹2.9 crore. FY27 will be the first full year of generation, at an annual levelised revenue above ₹6 crore.

Water EPC

Diversification of the Business

Segment snapshot

What we do

- Complex pipeline laying and water utility shifting for road infrastructure
- End-to-end water systems, including pump-house installations
- Rural water access through hand pump installations
- Utility shifting under national highway programmes, in Kerala and beyond

Civil EPC

The foundation beneath every project

Four service lines

- Structural and foundational works**
Building development, foundations and sewerage networks
- Road furniture**
Crash barriers and bus shelters for public roads
- Interior fit-outs**
Specialised fit-outs for commercial and retail clients
- Toll plaza construction**
Plaza buildings for national highway developers

The Equipment Edge

Why We Own Rather Than Rent

Most EPC contractors lean on third-party equipment rental, a model that works until a rental vendor's availability, pricing, or delivery timeline becomes someone else's problem to solve on your project's critical path. We've built our business the other way.

Zero Rental Bottlenecks

Owning the majority of our equipment removes the supply-chain delays and cost unpredictability that come with third-party rental dependency

Margin Protection

Every rupee that would otherwise go to a heavy-machinery rental contractor stays within our own margins instead

Faster Completion

Immediate access to our own machinery accelerates site mobilization, contributing to project completion times 15–20% faster than asset-light peers who depend on rental fleets.

Parallel Execution

Concentrated in regions like Rajasthan and Kerala, lets the same equipment be shared efficiently across multiple active sites simultaneously, rather than sitting idle between rental contracts

MEC Test House

Tested in-house in 48 to 72 hours, not 15 to 30 days

Current Infraprojects is among the few SME infrastructure firms with a fully owned, NABL-accredited laboratory. Every transformer, cable, soil and concrete sample from a CIPL site is tested by CIPL, in Jaipur, under **ISO/IEC 17025:2017**.

2 By the numbers

48 to 72 h
Turnaround on the bench

15 to 30 d
Third-party lab benchmark

172
Testing instruments

17025
ISO/IEC accreditation, NABL

1 What the lab delivers

Margin retention
External testing cost stays in-house

Zero rework
Real-time quality audits on site

Bidding edge
Reports accepted by NHAI, Discoms and central agencies

3 Completing the single window: MEP and PMC

Mechanical
Energy-efficient HVAC consulting

Electrical
Transformer, UPS and DG set design

Plumbing
Drainage, storage and treatment

PMC
Planning, cost, quality, risk, contracts

Management Discussion and Analysis

Industry Outlook: Grid must grow

India's electricity generation continues to expand

Total electricity generation in India, including grid-connected renewable generation.

Source: Ministry of Power, Government of India

India Power and Infrastructure Outlook

India's power and infrastructure landscape is entering a phase of sustained investment, supported by rising electricity demand, expanding economic activity and the rapid addition of renewable energy capacity.

The country's power sector is simultaneously witnessing growth in generation capacity and a structural expansion of the transmission and distribution network required to deliver reliable power across regions.

This is creating a broad-based opportunity across the power infrastructure value chain, including transmission lines, substations, distribution networks, grid modernisation and renewable energy evacuation infrastructure.

The next phase of growth will be defined by stronger transmission networks, modernised distribution systems and infrastructure capable of integrating rapidly expanding renewable capacity.

1 Rising Power Demand Driving Capacity Expansion

India's growing economy, increasing industrialisation, urbanisation, rising household consumption and the rapid expansion of data centres, manufacturing and other power-intensive sectors are expected to drive sustained growth in electricity demand. The National Electricity Plan projects India's peak electricity demand to reach approximately 388 GW by 2031-32, compared with a projected peak demand of around 296 GW for 2026-27. The growth in demand is being accompanied by a significant expansion in generation capacity.

As of January 31, 2026, India's total installed generation capacity stood at approximately 520.5 GW, of which 272.0 GW, or 52.3%, comprised non-fossil fuel sources. Renewable energy alone accounted for approximately 263.2 GW, or 50.6% of total installed capacity. During FY26, India added more than 52.5 GW of generation capacity up to January 2026, demonstrating the pace of capacity addition across the sector.

India's peak power demand is set to rise sharply

Projected peak electricity demand under India's National Electricity Plan

The implications extend beyond the requirement for additional generation capacity. Every incremental unit of electricity demand needs to be supported by adequate transmission and distribution infrastructure. This creates a multiplier effect across the power infrastructure ecosystem, as generation growth is accompanied by investments in evacuation systems, substations, grid strengthening and last-mile connectivity.

Source: Ministry of Power, Government of India

Cleaner power needs more wire

Non-fossil sources account for more than half of India's installed capacity
India's installed generation capacity as of January 31, 2026.

Source: Ministry of Power, Government of India

2 The Energy Mix is Changing, Creating a New Grid Opportunity

The expansion of renewable energy is becoming an increasingly important component of India's power sector growth. As of January 2026, renewable energy capacity stood at approximately 263 GW, while the country continues to work towards its target of 500 GW of non-fossil fuel installed capacity by 2030. The Ministry of Power estimates that an additional 237.22 GW of renewable energy capacity, along with the associated transmission infrastructure, needs to be added to achieve the 2030 target. This expansion is changing the nature of India's power infrastructure requirements.

Renewable generation is often concentrated in resource-rich regions, while major consumption centres are distributed across the country. Consequently, the development of renewable generation needs to be accompanied by timely investment in transmission systems, substations and power evacuation infrastructure. The requirement is therefore not limited to adding generation capacity. It extends across the entire electricity ecosystem, creating opportunities for companies involved in electrical infrastructure, EPC execution and renewable-energy infrastructure.

3 The Revamped Distribution Sector Scheme (RDSS) Distribution Modernisation is Creating a Second Engine of EPC Growth

While transmission is expanding to connect large generation centres with demand centres, India's distribution infrastructure is also undergoing a significant transformation.

The Revamped Distribution Sector Scheme (RDSS), with an approved outlay of approximately ₹3.03 lakh crore, is focused on improving the operational efficiency and financial sustainability of distribution utilities. The programme encompasses infrastructure strengthening, loss reduction, smart metering and modernisation of distribution networks.

The resulting opportunity extends across multiple areas of electrical infrastructure, including distribution lines, substations, feeder segregation, metering systems and network strengthening.

This makes distribution an important complement to the transmission investment cycle. While large transmission projects tend to involve significant network expansion, distribution projects create a broader opportunity pool across states and utilities.

For EPC companies, this diversification is important because it allows participation across different project sizes, geographies and stages of the power value chain.

RAF: Ten Year Visibility

4 Resource Adequacy Framework (RAF) Planning is moving from reactive to mandate

The Resource Adequacy framework is institutionalising advance power-sector planning, creating greater forward visibility for the generation, transmission, distribution and associated EPC infrastructure required to serve future demand

India's power sector is increasingly moving towards advance planning rather than responding to capacity shortages as they emerge. Under Rule 16 of the Electricity (Amendment) Rules, 2022, the Ministry of Power introduced the Resource Adequacy Planning framework, requiring DISCOMs to undertake forward-looking planning and procurement to ensure adequate resources to meet future electricity demand. The framework operates on a 10-year rolling horizon and explicitly considers generation, renewable energy, energy storage and other flexible resources.

The framework effectively changes the nature of future power-sector planning. DISCOMs are required to identify their future resource requirements and take procurement action ahead of the requirement, with the guidelines specifying procurement timelines for different types of resources. The framework also envisages a significant role for long-term contracting, with at least 75% of the required capacity suggested to be tied up through long-term contracts, subject to the applicable planning framework.

State-level implementation gathers pace

Resource-adequacy planning is increasingly being translated into state and DISCOM-level planning. CEA's resource-adequacy reports now cover multiple utilities and states, including Gujarat, Maharashtra, Delhi, Andhra Pradesh, Tamil Nadu and Bihar.

Longer-term EPC opportunity

As power planning becomes more forward-looking and resource requirements are identified years ahead, the associated transmission, distribution and grid infrastructure requirements are also increasingly being planned in advance. This enhances visibility across the Electrical EPC opportunity chain

2022 | Rule 16 introduced

Rule 16 of the Electricity (Amendment) Rules, 2022 established the requirement for formal resource-adequacy planning. State Commissions are required to frame regulations, while DISCOMs must prepare resource-adequacy plans aligned with those regulations.

2023 | National Resource Adequacy Guidelines issued

The Ministry of Power issued the Resource Adequacy Guidelines in June 2023, creating a framework for advance procurement of generation, renewable energy, storage and other flexible resources to meet future demand. The framework is designed around long-term planning rather than reacting to future shortages.

2026 | National planning moves into the next cycle

In April 2026, the Central Electricity Authority issued the Long-Term National Resource Adequacy Plan for 2026-27 to 2035-36, providing a fresh ten-year national planning framework for future resource requirements.

From Regulation to Long-Term Planning

₹9.15 lakh crore of Grid to build

5 Transmission is Becoming a Strategic Infrastructure Priority

The scale of renewable additions and rising electricity demand is creating an unprecedented requirement for transmission infrastructure.

India's National Electricity Plan envisages the addition of approximately 1.91 lakh circuit kilometres of transmission lines and 1,270 GVA of transformation capacity during 2022-23 to 2031-32.

The scale of investment associated with this expansion is equally significant. The Ministry of Power estimates more than ₹9.15 lakh crore of investment opportunities in the transmission sector through 2032.

The transmission opportunity is also becoming increasingly sophisticated. India's grid will need to handle larger and more geographically dispersed renewable generation while maintaining reliability and flexibility. This is driving investment not only in conventional transmission lines, but also in substations, grid-strengthening systems, advanced transmission technologies and inter-regional connectivity.

Inter-regional transmission capacity is planned to increase from approximately 120 GW in December 2025 to 168 GW by 2032, enabling greater movement of power between regions and supporting a more integrated national grid.

Transmission expansion offers a large addressable market
Key transmission additions envisaged under India's National Electricity Plan for 2022-23 to 2031-32.

Transmission lines	1.91 lakh circuit kilometres
Transformation capacity	1,270 GVA

Source: Ministry of Power, Government of India

Identified transmission investment opportunity through 2032
This scale of planned investment provides strong visibility for the electrical EPC ecosystem over the medium to long term.

₹9.15 lakh crore+

The next phase: a more integrated power ecosystem

India's power infrastructure is therefore moving beyond a simple capacity-addition cycle. The next phase is about creating an integrated ecosystem capable of generating, transmitting, evacuating, distributing and managing power efficiently.

The Government's transmission planning incorporates significant investments in energy storage, advanced grid technologies and renewable-energy evacuation infrastructure.

Battery Energy Storage Systems and Pumped Storage Plants are expected to play an increasing role in balancing the grid as renewable penetration rises.

This is likely to gradually expand the addressable market for infrastructure companies from conventional electrical works towards more integrated power and renewable-energy solutions.

Industry Outlook: Electrical EPC

A multi-year market opportunity

Transmission Line EPC

The expansion and strengthening of India's transmission network is creating a substantial pipeline for transmission-line EPC. Importantly, the opportunity is moving towards higher-capacity networks, including 400 kV and 765 kV systems, as power needs to be transmitted over longer distances.

A recent CRISIL-based industry assessment puts India's transmission-line EPC market at ₹20–22 billion in 2024, with the market projected to reach approximately ₹40–42 billion by 2030, implying a 12–13% CAGR.

Distribution EPC & Network Strengthening

The distribution opportunity is becoming increasingly project-intensive, with utilities investing in feeder infrastructure, transformer capacity, HT/LT lines, underground cabling and associated electrical works.

A broadening opportunity across the electrical infrastructure value chain

Substation & Transformation EPC

Substations are becoming increasingly important as the grid expands and renewable generation is integrated at scale. New transmission corridors require corresponding transformation capacity, while existing networks need augmentation to handle higher power flows.

The Indian substation market is estimated to grow from ₹30–32 billion in 2024 to ₹58–60 billion by 2030, representing an estimated 11–12% CAGR.

Renewable Evacuation is Creating a New Electrical EPC Layer

Renewable projects create EPC requirements outside the solar plant itself. Power must be evacuated from the generation site, stepped up through transformers, connected to substations and transmitted onwards.

CRISIL expects approximately ₹1 lakh crore of capex in India's inter-state transmission system across FY26 and FY27, roughly double the ₹50,000 crore spent across FY24 and FY25. This increased spending is primarily linked to renewable-energy evacuation.

Industry Outlook: Solar EPC

Expanding across the renewable-energy value chain

Utility-scale Solar EPC

Utility-scale projects remain the largest pool of Solar EPC opportunity. Between FY18 and FY26, developers received Letters of Award for approximately 174 GW of utility-scale solar projects. Around 118 GW had signed PPAs and 60 GW had been commissioned, leaving approximately 58 GW in the pipeline at the time of the latest Equirus assessment.

The significance for EPC players is that a sizeable portion of the opportunity has already moved beyond the tendering stage and into project development and execution.

Rooftop & Distributed Solar

The Solar EPC opportunity is also widening beyond large utility-scale projects. Rooftop and distributed solar provide access to commercial, industrial, institutional and residential applications, creating a more diversified project base.

As of 31 July 2026, India's grid-connected rooftop solar capacity stood at 30.74 GW, within a cumulative solar capacity of 164.59 GW

The rooftop market also continues to receive policy support through programmes such as PM-Surya Ghar and the Ministry of New and Renewable Energy's grid-connected rooftop solar programme.

Source: Equirus Securities

Solar EPC Evolution

Plant construction

CIPL is positioned to participate across this evolution through its Solar EPC capabilities, its established electrical execution base and its growing participation in RESCO projects.

Integrated energy infrastructure

During FY26, the Company commissioned four RESCO solar projects aggregating ~9.4 MW demonstrating its participation across both utility-linked and rooftop solar applications.

Solar + Storage is the next layer of growth

The next phase of Solar EPC is likely to involve greater integration of energy storage. Industry forecasts indicate that India's BESS demand could rise from approximately 34.7 GWh during 2022-27 to 236.2 GWh during 2027-32.

New renewable tenders are also increasingly shifting toward firm, round-the-clock and dispatchable renewable-energy formats, where solar is combined with storage or other renewable sources.

Solar + Electrical Integration

A solar project is not simply a module-installation exercise. Its generation has to be converted, collected, stepped up, protected and ultimately connected to the grid.

As Solar projects scale, the electrical content within each project becomes increasingly important, creating natural execution synergies between Solar EPC and Electrical EPC

From Opportunity to Execution

Performance Trajectory: Scaling Up, Broadening the Mix

Against a favourable industry backdrop, FY26 marked a year of accelerated execution, stronger earnings and a broader business mix, with Solar EPC emerging as a significant contributor to growth.

Margins remained resilient
EBITDA margin stood at 14.5%, despite input-cost pressures during the year.

FY26 profitability remained healthy despite moderation in margins from the previous year's elevated levels. Geopolitical developments contributed to volatility in raw-material and logistics costs during the year, impacting project economics.

Operational De-risking

Building a more diversified and resilient execution platform

FY26 marked an important step in strengthening the resilience of Current Infraprojects' operating model. While the Company continues to build on its established Electrical EPC capabilities, the expansion of Solar EPC, broader geographic participation and a growing mix of projects have progressively diversified the business and reduced dependence on any single opportunity pool.

Diversification across businesses

The Company's portfolio is broadening beyond its established Electrical EPC base. Solar EPC has scaled significantly during FY26, with revenue increasing approximately fourfold. Water EPC and other businesses continue to provide additional diversification.

This creates a broader revenue base across different infrastructure investment cycles.

From One Client Type to a Balanced Mix

Our B2B-to-B2G revenue split in FY26 reflects a business built on deep private-sector relationships, GR Infraprojects, Ashoka Buildcon, L&T, and HG Infra among them. At the same time, our order book increasingly reflects growing government participation, anchored by RDSS-scheme mandates from Jaipur and Jodhpur DISCOMs.

From Payment Risk to Payment Discipline

A meaningful share of India's EPC sector remains exposed to slow state-DISCOM payment cycles. Our RDSS-funded contracts, backed directly by the Central Government, carry a payment cycle of 30 days, materially reducing the working capital drag that affects much of our industry.

From Concentrated Execution to Distributed Presence

We operate across 12 states, anchored by high-density execution hubs in Rajasthan and Kerala that allow us to share equipment and engineering resources efficiently. This combination, deep density where we operate most, and breadth beyond it, lets us capture the efficiency benefits of concentration without the risk of being tied to any single region's economic conditions.

Diversification of revenue visibility

For most of our history, CIPL's revenue has come entirely from EPC contracting: project-based, cyclical, and dependent on winning the next tender. Our RESCO platform changes that structurally. Its 25-year Power Purchase Agreements generate contracted, non-cyclical income regardless of how any given tender cycle plays out, a genuine second revenue engine, not just a new business line

De-risking validated through numbers

Building a more diversified and resilient execution platform

The ₹305 crore order book points to greater diversification ahead, with a more balanced mix across segments, geographies and customer categories than reflected in FY26 execution.

Segmental Revenue mix

A more balanced segment pipeline

Solar EPC contributed 62% of FY26 revenue, reflecting its rapid scale-up during the year. The order book is more evenly distributed, with Solar EPC at 28%, Electrical EPC at 54% and Water EPC at 16%, providing a broader execution mix going forward.

Geography Revenue mix

Execution concentrated in FY26; order book more evenly spread

Rajasthan's contribution increased from 48% in FY25 to 78% in FY26, driven by the concentration of projects executed during the year. The order book presents a more diversified picture, with Rajasthan at 52%, Kerala at 36% and other states at 12%, taking the share outside Rajasthan to 48%.

Customer Revenue mix

B2G exposure adds balance to the customer mix in the order book

B2B customers continued to dominate FY26 revenue with an 86% share, while B2G accounted for 14%. The forward order book is more balanced at 65% B2B and 35% B2G, indicating a broader mix of customer categories in the executable pipeline.

*Includes a ₹10.30 crore JVVNL order dated 11 May 2026.

Value Creation Model

Execution, expansion and disciplined growth

Current Infraprojects creates value through disciplined execution, strong technical capabilities and expanding participation in Electrical and Solar EPC. Our focus is to convert capabilities and relationships into sustainable growth and long-term stakeholder value.

Our Value Creation Cycle

1 Our Resources: what we bring

Human Capital

45+ certified engineers |
Combined board experience of
over 150 years

Technical and Intellectual Capital

Electrical, Solar and Water EPC
expertise | NABL-accredited in-
house testing capabilities

Financial Capital

FY26 IPO proceeds supporting
working capital and RESCO
assets | Net debt/equity at 0.3x.

Relationship Capital

Established relationships with
utilities, PSUs and institutions
built through repeat mandates.

Operational Capital

Centralised procurement,
owned equipment and multi-
site execution infrastructure.

Natural Capital

9.4 MW owned RESCO solar
assets | ISO 14001 and ISO
50001 certified systems.

2 How we create value

Execute with discipline with in house testing
and integrated projects

Build on our core with established Electrical
EPC capabilities

Scale renewable opportunities with Solar EPC
expansion and RESCO initiative

Expand the addressable market with multi-
state execution

Strengthen project economics through
disciplined bidding

Build long-term relationships through reliable
execution

3 Value created in FY26

ISO 45001:2018 safety;

Environment

About 62% of revenue from
Solar EPC and RESCO;
ISO 14001 and ISO 50001
certified.

Communities

CSR in education,
healthcare and child
welfare; sourcing from local
vendors.

Risk & Mitigation

Staying resilient in a project-led business

Current Infraprojects earns its returns project by project, so margins and timelines are exposed to input prices, counterparties, approvals and its own execution. Five levers manage that exposure: disciplined bidding, project monitoring, procurement planning, customer diversification and financial controls.

Risk	Impact	Mitigation
1 External risks		
Raw material price volatility	Steel, aluminium, cables and equipment drive project cost; commodity spikes or supply shocks squeeze margins where escalation cannot be passed through.	→ Procurement planning, vendor management and project-level cost monitoring; price-variation clauses in government contracts give partial cover against input-cost swings.
Supply chain and availability	Shortages or late delivery of modules, transformers and cables delay schedules and raise costs.	→ Early procurement planning, established supplier relationships and close tracking of material requirements against the execution schedule.
Regulatory approvals and right of way	Approval, land, right-of-way or utility delays defer execution and revenue while overheads continue.	→ Milestone monitoring and active coordination with customers and authorities on approval and site dependencies.
Customers and tendering	Aggressive bids or delayed awards hit intake and margins; reliance on a few significant customers, adds exposure to their buying plans.	→ A widening customer and geographic base; projects are selected on execution feasibility and commercial attractiveness, not growth at any cost.
Renewable energy and PPA risks	Solar and RESCO projects hinge on approvals, grid connectivity, PPA execution, commissioning and counterparty payments; policy shifts alter economics.	→ Opportunities are pursued selectively, weighing project economics, contractual structure, counterparty quality and capital requirements.
2 Internal and execution risks		
Project execution and cost overruns	Dependencies across engineering, procurement, subcontractors, labour and site work; delays or poor resource use cause overruns, as the RHP notes.	→ Project-level monitoring, milestone tracking, site supervision and management review flag deviations early for corrective action.
Working capital and cash conversion	Costs are paid upfront while collections follow milestones; any mismatch raises working-capital needs.	→ Milestone-based billing, collection discipline, procurement planning and efficient working-capital rotation.
Execution capability during scale-up	Rapid order growth and new geographies stretch management bandwidth, skilled manpower and systems.	→ Project-management systems, execution teams and regional infrastructure are being strengthened as the business scales.
Quality, safety and compliance	Site hazards and quality or safety lapses cause rework, delay and financial or reputational loss.	→ Defined execution processes, technical supervision, testing and commissioning procedures and site-level safety practices.

Outlook & Management Priorities

Building on FY26 momentum

Current Infraprojects enters FY27 with a stronger execution platform, an order book of ₹305 crore at 31 March 2026 and a business mix that broadened materially during the year. FY26 delivered revenue from operations of ₹160.4 crore, EBITDA of ₹23.2 crore and profit after tax of ₹14.1 crore. The task now is to convert the order book into profitable execution while deepening project-management systems; Solar EPC remains the principal growth area, with bids placed for Solar and Solar + BESS tenders.

The FY26 base

₹160.4 cr
Revenue from operations
+76% YoY

₹23.2 cr
EBITDA
+58% YoY, margin 14.5%

₹14.1 cr
Profit after tax
+49% YoY, margin 8.8%

₹305 cr
Order book, 31 March 2026
1.9x FY26 revenue

01 Execute the order book
Convert existing orders into timely revenue while holding project quality, margins and customer commitments.
₹305 crore order book at 31 March 2026, 1.9x FY26 revenue; Rajasthan 52%, Kerala 36%

02 Scale Solar selectively
Build on the sharp FY26 rise in Solar EPC with discipline in project selection, procurement and execution.
Solar EPC revenue ₹96.2 crore in FY26, about 4x FY25 and 60% of revenue; 50+ MW commissioned

03 Strengthen the Electrical EPC franchise
Use new utility mandates and wider geographic participation to rebuild and scale Electrical EPC execution.
About ₹100 crore of RDSS mandates from Jaipur and Jodhpur Discoms, with IEEMA-linked price variation

04 Expand with capital discipline
Evaluate RESCO, PPA-linked and Solar + BESS opportunities selectively, balancing growth potential against capital needs and project economics.
Four RESCO plants, 9.4 MW, on 25-year PPAs; BESS bids being pursued in RESCO or EPC mode

05 Build execution depth
Keep strengthening project monitoring, internal systems, quality processes and delivery capability as scale rises; management has named these as priorities.
45+ certified engineers; NABL-accredited in-house test lab; 80%+ of equipment owned

FY27 priorities

Disciplined growth

The outlook rests on discipline rather than scale for its own sake: build on the established Electrical EPC foundation, scale the Solar EPC platform and pursue emerging renewable-energy opportunities selectively, with project execution, profitability and capital efficiency as the tests every new mandate must pass.

Sustainability at CIPL

Our approach, and the stakeholders we answer to

We believe that sustainable growth is fundamental to creating long-term value for our stakeholders. As an engineering, procurement and construction (EPC) company with expertise in solar power generation and infrastructure development, we contribute to India's transition towards a cleaner and more resilient energy future through the delivery of renewable energy and infrastructure solutions.

Sustainability is embedded within our business strategy and operational decision-making. We integrate environmental stewardship, social responsibility and sound corporate governance into our day-to-day operations, enabling us to manage risks responsibly, enhance operational resilience and deliver sustainable outcomes across our value chain.

This approach is supported by our commitment to ethical business conduct, responsible project execution, employee well-being and meaningful stakeholder engagement. As we continue to expand our presence across the country, we remain committed to minimising environmental impacts, maintaining safe and inclusive workplaces, fostering responsible business practices and creating positive socio-economic value in the communities where we operate.

This ESG section provides an overview of our approach to environmental, social and governance matters, highlighting our key sustainability priorities, material ESG topics, stakeholder engagement practices and governance framework.

Stakeholder engagement

Meaningful stakeholder engagement is integral to our approach to responsible business and long-term value creation. We recognise that maintaining open, transparent and collaborative relationships with our stakeholders is essential to understanding their evolving expectations, strengthening trust and supporting sustainable business growth.

We engage with our key stakeholder groups through structured communication channels designed to foster collaboration, encourage feedback and strengthen long-term relationships. These interactions enable us to better understand stakeholder perspectives, support informed decision-making and reinforce our commitment to responsible business practices.

Key Stakeholder Groups and Engagement Mechanisms

Investors and shareholders

We engage with our investors and shareholders through statutory disclosures, the Red Herring Prospectus (RHP), Annual General Meetings (AGMs), and the Stakeholders' Relationship Committee, ensuring transparent communication and regulatory compliance.

Employees and site workforce

We engage with them through safety induction programmes, toolbox talks, performance reviews, employee recognition programmes, and established grievance mechanisms that promote a safe, inclusive and productive work environment.

Clients

We maintain close engagement with our clients to ensure timely project execution, quality delivery and operational excellence. We engage through project governance meetings, contractual performance reviews, and periodic quality and safety audits.

Vendors and contractors

We engage with them through vendor evaluation and onboarding processes, compliance declarations, and periodic performance reviews to promote responsible procurement, strengthen supply chain resilience and ensure adherence to our quality, safety and regulatory expectations.

Government and regulatory authorities

We engage with the Government and regulatory authorities through statutory filings, regulatory approvals, compliance reporting and ongoing adherence to applicable legal and regulatory requirements.

Local communities

We engage with local communities through our Corporate Social Responsibility (CSR) programme partners and community infrastructure and welfare initiatives that contribute to inclusive and sustainable development.

Materiality Assessment

Focusing efforts on what matters most

Understanding the sustainability topics that matter most to our business and stakeholders is integral to our ESG approach. As part of our ESG journey, we conducted an Impact Materiality Assessment to identify and prioritise the environmental, social and governance (ESG) topics that are most relevant to our operations and stakeholders.

Our materiality assessment provides a structured framework for evaluating the actual and potential impacts of our activities on the environment, society and the economy.

It enables us to better understand stakeholder expectations, focus on the sustainability issues that are most significant to our business and support informed decision-making across the organisation.

The assessment was undertaken through a structured and stakeholder-driven process. The key stages followed in identifying, evaluating and prioritising our material ESG topics are illustrated below.

Step	Stage	Key Activities
1	Identify	- Identify key internal and external stakeholder groups - Define the scope of the materiality assessment - Identify the ESG topics relevant to CIPL's business and operations.
2	Engage & Analyse	- Develop and circulate a structured materiality questionnaire - Collect responses from stakeholders - Analyse the feedback to understand stakeholder priorities.
3	Prioritise	- Assign weightages based on stakeholder responses and business relevance - Prioritise the ESG topics according to their significance.
4	Materiality Matrix	- Develop the materiality matrix based on the prioritised topics - Finalise the list of material ESG topics that forms the basis of the Company's ESG disclosures.

Material Topics

Environmental	Social	Governance
Energy Management & Grid Infrastructure	Community Development & Social Impact	Supply Chain Management & Sustainable Procurement
GHG Emissions & Climate Impact	Human Rights & Labour Practices	Anti-Corruption & Ethical Conduct
Waste & Hazardous Materials Management	Occupational Health, Safety & Environment (HSE)	Responsible Governance
Water Management	Talent Management & Human Capital Development	
Biodiversity & Ecosystem	Land Acquisition & Resettlement	

Environment

Delivering clean energy, minimising our footprint

Environmental stewardship is fundamental to our business model and operational philosophy. As a company engaged in the development of renewable energy and infrastructure projects, we contribute to India's transition towards a low-carbon economy by delivering sustainable energy solutions while seeking to minimise the environmental footprint of our operations. We adopt a proactive approach to environmental management by integrating environmental considerations across project planning, execution and operational activities.

- 1 Energy Management and Grid Infrastructure:** Grid-connected solar for institutional, commercial and industrial customers; the corporate office runs on rooftop solar.
- 2 GHG Emissions and Climate Impact:** Each project displaces fossil-fuel electricity; climate disclosures will be expanded as the ESG journey continues.
- 3 Waste and Hazardous Materials Management:** Managed responsibly and in compliance with environmental law; the approach is being strengthened.
- 4 Water Management:** Water supports construction and solar upkeep; good water-management practice is built into project execution.
- 5 Biodiversity and Ecosystem:** Natural ecosystems respected and applicable environmental regulations met throughout operations.

Social

Safe, skilled, fair and connected to our communities

People are central to our continued growth and operational excellence. We are committed to fostering a safe, inclusive and engaging workplace while creating positive social outcomes for our employees, business partners and the communities in which we operate. Through our people-centric policies and responsible business practices, we seek to build a resilient workforce, promote employee well-being and contribute to sustainable community development.

1 Occupational Health, Safety and Environment

An ISO 45001:2018 certified occupational health and safety management system, backed by a Board-approved Health and Safety Policy, sets the standard on every site. Performance is tracked through management information systems; hazard identification and risk assessment (HIRA) and job safety analysis (JSA) precede project activities; employees and eligible contract personnel carry medical, accident and statutory insurance cover.

Permit to work, supervision and mandatory PPE for high-risk operations

Electrical work

Confined space entry

Working at height

2 Talent Management and Human Capital Development

Structured, transparent performance management supports merit-based progression, with clear career pathways, leadership development and cross-functional exposure. Continuous feedback runs through regular reviews, recognition initiatives and leadership interactions. Compensation is benchmarked periodically, with internal pay reviews to promote pay equity across gender and role. Site contractors complete mandatory safety inductions, skill certification and compliance workshops.

3 Human Rights and Labour Practices

We are committed to upholding fundamental human rights and maintaining fair labour practices across our operations and business relationships. Child labour, forced labour and bonded employment are prohibited. Onboarding, contractor compliance requirements and periodic verification uphold labour law; systems secure timely wages and statutory contributions; no discrimination on gender, religion, caste, ethnicity or any other protected characteristic.

4 Community Development and Social Impact

CSR programmes run under a Board-level CSR Committee and Schedule VII of the Companies Act, 2013. FY26 contributions to partner organisations supported education, healthcare, child welfare, community development and social upliftment around our operations.

During FY 2025–26, our CSR contributions supported organisations including Abhyutthanam Welfare Foundation (Jaipur), Sapna Trust and Round Table Trust, enabling initiatives focused on education, healthcare, child welfare, community development and social upliftment.

5 Land Acquisition and Resettlement

Responsible land acquisition is an important consideration for infrastructure development projects. We are committed to ensuring that our land procurement and leasing activities are undertaken in compliance with applicable legal and regulatory requirements while respecting the interests of affected stakeholders.

Social

Governance

Integrity, oversight and accountability

Corporate governance forms the foundation of our approach to responsible business. We are committed to maintaining high standards of integrity, accountability and transparency while ensuring effective oversight of business risks and sustainable value creation. Through our governance framework, we seek to strengthen stakeholder confidence, promote ethical decision-making and support long-term organisational resilience.

Governance Framework

Our governance structure is led by our Board of Directors, which provides strategic direction and oversight across our operations. The Board is supported by specialised committees that oversee key areas of governance, financial reporting, stakeholder interests and corporate responsibility.

1 Board and Committees

Our governance structure is led by our Board of Directors, which provides strategic direction and oversight across our operations. The Board is supported by specialised committees that oversee key areas of governance, financial reporting, stakeholder interests and corporate responsibility.

2 Ethical Conduct and Controls

Our governance framework is supported by key policies covering:

3 Supply Chain Management and Sustainable Procurement: Predominantly domestic sourcing; approved vendors assessed on capability, quality and compliance record; contractor compliance checked through declarations and audits.

4 Risk Management and Information Security: A Board-approved Risk Management Policy guides identification and response; secure IT systems, controlled access and periodic assessments protect business information.

5 Compliance and Anti-corruption: Zero tolerance for bribery, fraud and unethical conduct, reinforced through governance processes, internal reviews and Audit Committee oversight.

Statutory Reports

Notice of 13th Annual General Meeting of Current Infraprojects Limited

Notice

Notice is hereby given that the 13th (Thirteenth) ANNUAL GENERAL MEETING (AGM) of the Members of CURRENT INFRAPROJECTS LIMITED ("the company") is scheduled to be held on Thursday, 24th September 2026 at 11:00 a.m. Indian Standard Time (IST) through video conferencing (VC)/Other Audio-Visual means (OAVM) The venue of the meeting shall be deemed to be the Registered Office of the Company A-27, Basant Vihar, Vaishali Marg (West), Panchyawala, Jaipur, Rajasthan 302034 to transact the following business-

Ordinary Business

1. To receive, consider and adopt the:

- Audited Standalone Financial Statements of the Company for the financial year ended 31st March 2026 together with the reports of the Board of Directors and Auditors thereon.
- Audited Consolidated Financial Statements of the Company for the financial year ended March 31, 2026, together with the Report of the Auditors thereon.

2. Appointment of Mr. Shailender Singh Naruka (DIN: 10717929) as a Whole-time Director of the Company

To consider and, if thought fit, to pass the following resolution as an **Ordinary Resolution**:

"RESOLVED THAT pursuant to the provisions of Sections 152, 160, 161, 196, 197, 203 and other applicable provisions, if any, of the Companies Act, 2013 read with Schedule V and the rules made thereunder (including any statutory modification(s) or re-enactment(s) thereof for the time being in force) and the Articles of Association of the Company, and subject to such other approvals as may be necessary, the approval of the Members of the Company be and is hereby accorded to the appointment of Mr. Shailender Singh Naruka (DIN: 10717929), who was appointed by the Board of Directors as an Additional Director of the Company designated as a Whole-time Director with effect from **23rd July 2026**, and who holds office up to the date of this Annual General Meeting in terms of Section 161(1) of the Companies Act, 2013, and in respect of whom the Company has received a notice in writing from a member under Section 160 of the Companies Act, 2013 proposing his candidature for the office of Director, as a Whole-time Director of the Company, liable to retire by rotation, for a period of 5 (five) years commencing from **23rd July 2026** for financial years 2026-27 to 2030-31, on such terms and conditions including remuneration as approved by the Board and Nomination and Remuneration Committee, and as set out in the Explanatory Statement annexed to this Notice.

RESOLVED FURTHER THAT the Board of Directors of the Company be and is hereby authorised to alter and vary the terms and conditions of the said appointment, including remuneration, in such manner as may be agreed to between the Board and Mr. Shailender Singh Naruka, subject to applicable law, and to do all such acts, deeds, matters and things as may be necessary, expedient or incidental thereto to give effect to this resolution."

3. Appointment of Mr. Chetan Dadhich (DIN: 10895429) as a Whole-time Director of the company

To consider and, if thought fit, to pass the following resolution as an **Ordinary Resolution**:

"RESOLVED THAT pursuant to the provisions of Sections 152, 160, 161, 196, 197, 203 and other applicable provisions, if any, of the Companies Act, 2013 read with Schedule V and the rules made thereunder (including any statutory modification(s) or re-enactment(s) thereof for the time being in force) and the Articles of Association of the Company, and subject to such other approvals as may be necessary, the approval of the Members of the Company be and is hereby accorded to the appointment of Mr. Chetan Dadhich (DIN: 10895429), Chief Executive Officer (CEO) of the Company, who was appointed by the Board of Directors as an Additional Director of the Company designated as a Whole-time Director & Chief Executive Officer (CEO) with effect from **23rd July 2026**, and who holds office up to the date of this Annual General Meeting in terms of Section 161(1) of the Companies Act, 2013, and in respect of whom the Company has received a notice in writing from a member under Section 160 of the Companies Act, 2013 proposing his candidature for the office of Director, as a Whole-time Director & Chief Executive Officer (CEO) of the Company, liable to retire by rotation, for a period of 5 (five) years commencing from **23rd July 2026** for financial years 2026-27 to 2030-31, on such terms and conditions including remuneration as approved by the Board / Nomination and Remuneration Committee, and as set out in the Explanatory Statement annexed to this Notice.

RESOLVED FURTHER THAT the Board of Directors of the Company (including any Committee thereof) be and is hereby authorised to alter and vary the terms and conditions of the said appointment, including remuneration, in such manner as may be agreed to between the Board and Mr. Chetan Dadhich, subject to applicable law, and to do all such acts, deeds, matters and things as may be necessary, expedient or incidental thereto to give effect to this resolution."

4. Appointment of M/s Maheshwari Neetu & Associates, Practicing Company Secretaries, as Secretarial Auditor of the Company

To consider and, if thought fit, to pass the following resolution as an **Ordinary Resolution**:

"RESOLVED THAT pursuant to the provisions of Section 204 of the Companies Act, 2013 read with Rule 8 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, and other applicable provisions, if any, of the Companies Act, 2013 (including any statutory modification(s) or re-enactment(s) thereof for the time being in force), and pursuant to the recommendation of the Board of Directors of the Company, M/s Maheshwari Neetu & Associates, Practicing Company Secretaries (Peer Review No. 4220/2023), be and are hereby appointed as the Secretarial Auditor of the Company, to conduct the Secretarial Audit of the Company for a term of 5 (five) consecutive financial years, commencing from FY 2026-27 up to FY 2030-31, on such remuneration as may be mutually agreed between the Board of Directors and the Secretarial Auditor from time to time, in addition to applicable taxes and reimbursement of out-of-pocket expenses incurred in connection with the secretarial audit.

RESOLVED FURTHER THAT the Board of Directors of the Company (including any Committee thereof) be and is hereby authorised to do all such acts, deeds, matters and things and to take all such steps as may be necessary, proper or expedient to give effect to this resolution, including fixing/revising the remuneration of the Secretarial Auditor from time to time.”

Special Business

5. To maintain borrowing limit of the Company under Section 180 (1) (c) of the Companies Act, 2013 and in this regard to consider and if thought fit, to pass, with or without modification(s), the following resolution as a Special Resolution-

"RESOLVED THAT pursuant to the provisions of Section 180(1)(c) and other applicable provisions, if any, of the Companies Act, 2013 including any statutory modifications or any amendments or any substitution or re-enactment thereof, if any, for the time being in force and all other applicable Acts, laws, rules, regulations and guidelines for the time being in force; the consent of the members of the Company be and is hereby accorded for authorizing the Board of Directors of the Company for borrowing from time to time as they may think fit, any sum or sums of money not exceeding Rs. 150 Crores [including the money already borrowed by the Company] whether the same may be secured or unsecured and if secured, whether by way of mortgage, charge or hypothecation, pledge or otherwise in any way whatsoever, on, over or in any respect of all, or any of the Company's assets and effects or properties whether movable or immovable, including stock-in-trade, notwithstanding that the money to be borrowed together with the money already borrowed by the Company (apart from the temporary loans obtained from the Company's Bankers in the ordinary course of business) and remaining un-discharged at any given time, exceed the aggregate, for the time being, of the paid-up capital of the Company and its free reserves (that is to say reserve not set apart for any specific purpose) on such terms and conditions as the Board may consider necessary and expedient in their absolute discretion."

6. To take approval for Material Related Party Transaction and in this regard to consider, and if thought fit, pass with or without modification, the following resolution as a Special Resolution

"RESOLVED THAT pursuant to the provisions of Section 188 and other applicable provisions, if any, of the Companies Act, 2013 ("Act") read with the applicable rules issued thereunder (including any statutory modification(s) or re-enactment thereof), Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") read with SEBI Circulars SEBI/HO/CFD/CMD1/CIR/P/2022/40 dated March 30, 2022 and SEBI/HO/CFD/ CMD1/CIR/P/2022/47 dated April 8, 2022 and other relevant circulars ("SEBI Circulars"), the Company's Policy on Related Party Transactions and based on recommendation of the Audit Committee and the Board of Directors, the consent of the members of the Company be and is hereby accorded to enter into contract(s)/ arrangement(s) / transaction(s) in the ordinary course of business, with Related parties, for an amount not exceeding the aggregate 200 CR (Rupees Two Hundred Crores only); for a period upto next annual general meeting to be held in the year 2027, for a period not exceeding fifteen months, on such terms and conditions as may be considered appropriate by the Board;

RESOLVED FURTHER THAT the Board of Directors of the Company be and is hereby authorised to delegate all or any of the powers conferred to it under this resolution to any of its committees or directors of the Company and to do all such acts, deeds, matters and things as may be deemed necessary to give effect to this resolution;

RESOLVED FURTHER THAT all actions taken by the Board in connection with any matter referred to or contemplated in this resolution, be and are hereby approved, ratified and confirmed in all respects."

7. Making investments /extending loans and giving guarantees or providing securities in connection with loans to persons / bodies corporate u/s 186 of the companies act, 2013 and in this regard, if thought fit, pass with or without modification(s), the following resolution as a Special Resolution

“RESOLVED THAT pursuant to the provisions of Section 186 of the Companies Act, 2013 read with The Companies (Meetings of Board and its Powers) Rules, 2014 as amended from time to time and other applicable provisions of the Companies Act, 2013 (including any statutory modification thereof for the time being in force and as may be enacted from time to time), if any consent of the shareholders of the Company be and is hereby accorded to:

- a. give any loan to any person(s) or other body corporates;
- b. give any guarantee or provide security in connection with a loan to any person(s) or other body corporates; and
- c. acquire by way of subscription, purchase or otherwise, securities of any other body corporate;

from time to time in one or more tranches as the Board of Directors as in their absolute discretion deem beneficial and in the interest of the Company, for an amount not exceeding Rs. 150 crores (One Hundred Fifty Crores Only) outstanding at any time, notwithstanding that such investments, outstanding loans given or to be given and guarantees and security provided are in excess of the limits prescribed under Section 186 of the Companies Act, 2013.

RESOLVED FURTHER THAT any Director of the Company, be and is hereby authorized to sign and submit the necessary application and forms with appropriate authorities and to perform all such acts, deeds and things as he may in his absolute discretion deem necessary or desirable for and on behalf of the Company for the purpose of giving effect to aforesaid resolution."

8. Loans, Investments, Guarantee or Security u/s 185 of Companies Act, 2013, and in this regard, if thought fit, pass with or without modification(s), the following resolution as a Special Resolution

"RESOLVED THAT pursuant to the provisions of Section 185 and all other applicable provisions of the Companies Act, 2013 and Rules made thereunder as amended from time to time, the consent of the members of the Company be and is hereby accorded to authorize the Board of Directors of the Company (here in after referred to as the Board, which term shall be deemed to include, unless the context otherwise required, any committee of the Board or any director or officer(s) authorized by the Board to exercise the powers conferred on the Board under this resolution) to advance any loan including any loan represented by a book debt, or give any guarantee or provide any security in connection with any loan taken by any person in whom any of the director of the company is interested upto an aggregate sum of Rs. 150 Crores (Rupees One Hundred and Fifty Crores Only) in their absolute discretion deem beneficial and in the interest of the Company, provided that such loans are utilized by the borrowing entity for its principal business activities.

RESOLVED FURTHER THAT any Director of the Company, be and is hereby authorized to sign and submit the necessary application and forms with appropriate authorities and to perform all such acts, deeds and things as he may in his absolute discretion deem necessary or desirable for and on behalf of the Company for the purpose of giving effect to aforesaid resolution."

By order of the Board

Notes for e-AGM

1. The explanatory statement pursuant to the provisions of Section 102 of the Companies Act, 2013, read with the relevant Rules made thereunder (the "Act"), which sets out details relating to Special Businesses to be transacted at the meeting is annexed herewith and forms part of this notice.
2. Information pursuant to Regulation 36 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard-2 on General Meetings issued by the Institute of Company Secretaries of India, in respect of the Directors seeking appointment / reappointment at the AGM, is furnished as annexure to this Notice. The Director(s) has furnished consent/declarations for his appointment as required under the Act and rules made thereunder as well as SEBI Listing Regulations.
3. Pursuant The Ministry of Corporate Affairs ("MCA"), Government of India, vide General Circular No. 14/2020 dated 8th April 2020, 17/2020 dated 13th April 2020, 20/2020 dated 5th May 2020, 02/2021 dated 13th January 2021, 19/2021 dated December 8th, 2021, 2/2022 dated May 5th, 2022, 10/2022 dated December 28th, 2022, 09/2023 dated September 25th, 2023, 09/2024 dated September 19, 2024, **and General Circular No. 03/2025 dated September 22, 2025** ("MCA Circulars"), and Securities and Exchange Board of India vide Circular No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated 12th May 2020, SEBI/HO/CFD/CMD2/CIR/P/2021/11 dated 15th January 2021, SEBI/HO/CFD/CMD2/CIR/P/2022/62 dated May 13th, 2022, SEBI/HO/CFD/PoD-2/P/CIR/2023/4 dated January 5th, 2023, SEBI/HO/CFD/CFD-PoD-2/P/CIR/2023/167 dated October 7th, 2023, SEBI/HO/CFD/CFD-PoD-2/P/CIR/2024/133 dated October 3rd, 2024, **and other applicable subsequent circulars** ("SEBI Circulars"), have permitted holding of the Annual General Meeting ("AGM") of the companies through Video Conferencing ("VC") or Other Audio Visual Means ("OAVM") **without the physical presence of the Members at a common venue.**
4. In compliance with applicable provisions of the Companies Act, 2013 ("the Act") read with the MCA Circulars and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), the 13th Annual General Meeting of the Company is being conducted through VC/OAVM (hereinafter referred to as "AGM"). In accordance with the Secretarial Standard-2 on General Meeting issued by the Institute of Company Secretaries of India (ICSI) read with Guidance/ Clarification note dated April 15, 2020, issued by ICSI, the proceedings of the AGM shall be deemed to be conducted at the Registered Office of the Company which shall be the deemed venue of the AGM.
5. Pursuant to the provisions of the Act, a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a member of the company. Since this AGM is being held pursuant to the MCA circulars and SEBI circulars through VC/OAVM, physical attendance of members has been dispensed with. Accordingly, the facility for appointment of proxies by the members will not be available for this AGM and hence the proxy form, attendance slip and route map of AGM are not annexed to this notice.
6. The Company has appointed M/s Bigshare Services Private Limited Registrar and Share Transfer Agent of the Company, to provide VC/OAVM facility for 13th AGM of the company.
7. Institutional/Corporate Shareholders (i.e. other than individuals/HUF, NRI, etc.) are required to send a scanned copy (PDF/ JPG Format) of its Board or governing body Resolution/Authorization etc., authorizing its representative to attend the AGM through VC / OAVM on its behalf and to vote through remote e-voting. The said Resolution/Authorization shall be sent to the Scrutinizer by email through its registered email address to cs@currentinfra.com with a copy marked to i-vote@bigshareonline.com.
8. In terms of the relevant Circulars, the Members are requested to take note of the following:
 - a. Notice convening the AGM of the Company, the Annual Report for the financial year 2025-26 and the e-voting instructions along with the User ID and Password are being sent only by email to those Members who have registered their email address with their Depository Participant(s) ("DPs")
 - b. Attendance of Members at the AGM through VC/OAVM shall be counted for the purpose of reckoning the quorum, under the provisions of Section 103 of the Act read with the relevant Circulars.
9. In case of Joint Holders attending the AGM, only such Joint Holder who is named first in the order of names in the Register of Members will be entitled to vote.
10. Only bona fide members of the company whose names appear on the Register of Members will be permitted to attend the meeting through VC/OAVM. The Company reserves its right to take all necessary steps as may be deemed necessary to restrict non-members from attending the meeting.
11. The board of directors has appointed Neetu Maheshwari, a Practicing Company Secretary (Membership No. F10266), Practicing Company Secretaries as the Scrutinizer to scrutinize the remote e-voting at the meeting in a fair and transparent manner and they have communicated their willingness to be appointed for the same purpose.
12. Members holding shares in electronic form are requested to intimate all changes pertaining to their Company details, ECS mandates, email addresses, bank account details, mobile number, nominations, power of attorney, change of address/name etc. to their DPs. Any changes effected by the DPs will be automatically reflected in the record maintained by the Depositories.
13. The Securities and Exchange Board of India (SEBI) has mandated furnishing of PAN, specimen signature, KYC details (i.e., Postal Address with Pin Code, email address, mobile number and bank account details) and nomination details by holders of physical securities. In terms of SEBI circular no. SEBI/HO/MIRSD/MIRSD-PoD-1/P/CIR/2023/37 dated March 16, 2023, the Company had sent communications to all its members holding shares in physical form to provide the aforesaid details.

Further, any service request or grievance received from the Member will not be processed until the aforesaid details/ documents are provided to Registrar & Share Transfer Agent i.e. Bigshare Services Private Limited at Office No, S-2, 6th Floor, Pinnacle Business Park Next to Ahura Centre, Mahakali Caves Road, Andheri (East), Mumbai, Maharashtra - 400093 Bigshare Services Private Limited, Registrar & Share Transfer Agent of the Company at www.bigshareonline.com and shall be eligible for any payment including dividend, interest or redemption in respect of such folios, only through electronic mode with effect from April 01, 2024 upon complying with the requirements as aforesaid. Relevant details and forms prescribed by SEBI in this regard are available on the website of the Company also at <https://www.currentinfra.com/> Members holding shares in electronic form are requested to submit the PAN, KYC details to their Depository Participants with whom they are maintaining their demat accounts.
14. To prevent fraudulent transactions, members are advised to exercise due diligence and notify the Company of any change in address of any member as soon as possible. Members who are holding shares in physical forms are requested to notify changes in their respective address/ Bank Mandate/National Electronic Clearing Service (NECS) details, if any, to Company's Registrar & Share Transfer Agent. Beneficial owners holding shares in electronic form are requested to intimate change in address/ Bank Mandate/ National Electronic Clearing Service (NECS) details, if any, to their respective Depository Participants (DP).
15. Pursuant to the provisions of Section 72 of the Companies Act 2013, a member(s) holding shares in physical form may nominate, in the prescribed Form SH-13, a person to whom all the rights in the shares shall vest in the event of death of the sole holder or all the joint holders. Members holding shares in physical form may write to the Company/ Registrar & Share Transfer Agent for this facility. Member(s) holding shares in demat form may contact their respective Depository Participant for availing this facility.
16. Members holding shares in Electronic (demat) form or in physical mode are requested to quote their DPID & Client ID or Folio details, respectively, in all correspondences, including dividend matters to the RTA i.e. Bigshare Services Private Limited (Unit: Current Infraprojects Limited), at Office No, S-2, 6th Floor, Pinnacle Business Park Next to Ahura Centre, Mahakali Caves Road, Andheri (East), Mumbai, Maharashtra - 400093 or the Secretarial Department of the Company.
17. **Online Dispute Resolution Framework:** SEBI vide Circular Nos. SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/131 dated July 31, 2023, and SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/135 dated August 4, 2023, read with Master Circular No. SEBI/HO/OIAE/OIAE_IAD-3/P/CIR/2023/195 (Updated as on December 28, 2023), has established a common Online Dispute Resolution Portal ('**SMART ODR Portal**') for the resolution of disputes arising in the Indian Securities Market. Shareholders who have exhausted their options to resolve grievances directly with the Company / RTA and through the SCORES platform, can initiate the dispute resolution process on the SMART ODR Portal at <https://smartodr.in/>."
18. The Register of Directors & Key Managerial Personnel and their shareholding, maintained under Section 170 of the Companies Act, 2013, Register of Contracts or Arrangements in which Directors are interested under Section 189 and any other document referred in the notice of this Annual General Meeting will be made available for inspection by members of the Company, up to the date of the Annual General Meeting, basis email request received on cs@currentinfra.com.
19. The SEBI has launched its new Investor website at <https://investor.sebi.gov.in/>. The said website contains information on personal finance and investment useful for existing and new investors. It also includes videos prepared by MIIs related to securities market process education and awareness messages. The SEBI Investor website promotes confident and informed participation by investors in the securities market.
20. **Dispute Resolution Mechanism:** SEBI vide its circular no. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/76 dated May 30, 2022, has prescribed Standard Operating Procedures for dispute resolution under the Stock Exchange arbitration mechanism for disputes between a Listed Company and/or RTA and its Shareholder(s)/Investor(s). Furthermore, SEBI has consolidated these provisions under the '**Master Circular for Online Resolution of Disputes in the Indian Securities Market**' (Updated as on December 28, 2023). Shareholders who have exhausted their grievances directly with the Company or RTA and remain unsatisfied with the outcome via the SCORES portal, may initiate online conciliation or arbitration on the **SMART ODR Portal** at <https://smartodr.in/>."

ELECTRONIC DISPATCH OF ANNUAL REPORT AND PROCESS FOR REGISTRATION OF EMAIL ID FOR OBTAINING COPY OF ANNUAL REPORT

19. In the line with the measures of “Green Initiatives”, the Act provides for sending Notice of the AGM and other correspondence through electronic mode. Hence, members who have not registered their email IDs so far, are requested to register their email IDs with their depository participants in respect of shares held in electronic form and in respect of shares held in physical form, are requested to submit their request with their valid e-mail IDs to our RTA at i-vote@bigshareonline.com or cs@currentinfra.com for receiving all the communications including annual report, notices, letters etc., in electronic mode from the Company. The company is concerned about the environment and utilizes natural resources in a sustainable way.
20. Pursuant to Section 101 and Section 136 of the Act, read with relevant Companies (Management and Administration Rules), 2014, and Regulation 36 of SEBI (Listing Obligations Disclosures Requirement) Regulation, 2015 (“SEBI Listing Regulations”) read with the aforesaid MCA circulars and SEBI circulars dated May 12, 2020 read with circular dated January 15, 2021, May 13, 2022, January 5, 2023 and October 7, 2023, and October 3, 2024, Notice of AGM along with Annual Report for the financial year ended on March 31, 2026, are being sent only through electronic mode to the members whose e-mail address is registered with the Company or with the Depository Participant(s).
- Members may note that the Notice of the AGM and Annual Report 2025-26 will also be available on the Company's website <https://www.currentinfra.com/annual-reports/> and websites of the Stock Exchanges i.e. Emerge platform of National Stock Exchange of India Limited at www.nseindia.com , respectively, and on the website of Big share Services Private Limited at <https://ivote.bigshareonline.com> and Members who require a hard copy of the Annual Report may send their requests to the E-mail ID: cs@currentinfra.com
21. Non-Resident Indian Members are requested to inform our RTA / respective depository participants, immediately of any:
- a. Change in their residential status on return to India for permanent settlement.
 - b. Particulars of their bank account maintained in India with complete name, branch, account type, account number and address of the bank with PIN code number, if not furnished earlier.

22. THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING ARE AS UNDER:

The voting period begins on <21.09.2026 09.00 AM> and ends on <23.09.2026 05.00 PM >. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of <18.09.2026> may cast their vote electronically. The e-voting module shall be disabled by Bigshare for voting thereafter.

- i. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- ii. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders’ resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- iii. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020**, on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

1. Pursuant to above said SEBI Circular, Login method for e-Voting and joining virtual meetings **for Individual shareholders holding securities in Demat mode** is given below:

Type of shareholders	Login Method
Individual Shareholders holding securities in Demat mode with CDSL	1. Users who have opted for CDSL Easi / Easiest facility, can login through their existing user id and password. STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013 IN RESPECT OF SPECIAL BUSINESS SET OUT IN THE NOTICE

Item No. 4

In accordance with the provisions of Section 204 and other applicable provisions of the Companies Act, 2013, read with Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, ("the Act") and Regulation 24A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"),

The amended Regulation 24A of the Listing Regulations, inter alia, provides that with effect from 1st April 2026, the Company is required to appoint a Practicing Company Secretary for not more than one term of five consecutive years or a firm of Practicing Company Secretaries for not more than two terms of five consecutive years as Secretarial Auditors, with the approval of the members at its Annual General Meeting ("AGM") and such Secretarial Auditor(s) must be a peer reviewed company secretary and should not have incurred any of the disqualifications as specified under the Listing Regulations. Further, as per the said Regulation, any association of the individual or the firm as the Secretarial Auditor(s) of the Company before 31st March 2026 shall not be considered for the purpose of calculating the tenure of the Secretarial Auditor(s).

Pursuant to the above provisions the Audit Committee and the Board of Directors have approved the appointment of **M/s. Maheshwari Neetu & Associates**, as the Secretarial Auditors of the for a period of 5 (five) consecutive financial years commencing from 2026-27 to 2030-31. The appointment is subject to shareholders' approval at the AGM. While recommending **M/s. Maheshwari Neetu & Associates** for appointment, the Audit Committee and the Board based on past audit experience of the audit firm particularly in auditing large companies, valued various factors, including the firm's capability to handle a diverse and complex business environment, its existing experience in the various business segments, the clientele it serves, and its technical expertise.

The Company has received a consent letter from **M/s. Maheshwari Neetu & Associates** expressing their willingness to be appointed as the Secretarial Auditors of the Company and confirming that they shall conduct the Secretarial Audit and issue the Secretarial Audit Report in compliance with Section 204 of the Companies Act, 2013 and other applicable provisions under the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, as amended. Further, **M/s. Maheshwari Neetu & Associates** has affirmed its compliance with Regulation 24A(1B) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, in providing such services to the Company. **M/s. Maheshwari Neetu & Associate** has also confirmed that it holds a valid Peer Review Certificate issued by the Institute of Company Secretaries of India (ICSI), meets all eligibility criteria, and has not incurred any disqualification for appointment in terms of Regulation 24A of the SEBI Listing Regulations and the SEBI circular dated December 31, 2024.

Profile: M/s. Maheshwari Neetu & Associates stands as one of the premier firms of practicing Company Secretaries, with a legacy of over 12 years in delivering excellence in compliance and governance. The firm's broad and comprehensive practice areas reflect its deep expertise across various domains, including corporate laws, capital market transactions, listing compliances, due diligence, and compliance & governance audits. This extensive knowledge enables **M/s Maheshwari Neetu & Associates** to be a trusted partner for businesses navigating intricate legal and regulatory landscapes. Dedicated to excellence and a client-centric philosophy, **M/s Maheshwari Neetu & Associates** offers tailored solutions within these diverse practice areas, ensuring clients achieve their business goals efficiently and effectively.

Terms of appointment: M/s Maheshwari Neetu & Associates is proposed to be appointed for a term of 5 (five) consecutive years, to conduct the Secretarial Audit of five consecutive financial years commencing from 2026-27 to 2030-31. Besides the audit services, the Company would also obtain permitted services which are to be mandatorily received from the Secretarial Auditor under various statutory regulations from time to time. The proposed fees payable to **M/s Maheshwari Neetu & Associates** is INR 2.50 lakhs per annum. The said fees shall exclude GST and other applicable taxes, if any, and reimbursement of out-of-pocket expenses. The Board is proposed to be authorised to revise the fees, from time to time.

The Board recommends the Resolution as set out under business item no. 4 in the notice of this meeting for the approval of the Members as an Ordinary Resolution.

None of the Directors or Key Managerial Personnel of the Company or their relatives is/are concerned or interested, financially or otherwise, in the proposed resolution.

Item No. 5

The Board of Directors of the Company intends to maintain limit of such sum or sums of money from time to time as may be required for the purpose of the business of the Company, notwithstanding that the money to be borrowed together with the money already borrowed by the Company (apart from "temporary loans" as explained in section 180(1)(c) of the Companies Act, 2013 obtained by the Company in the ordinary course of business) may, at any time, exceed upto a sum of Rs. 150 Crore (Rupees One Hundred Fifty Crore only) over and above the aggregate paid up capital of the Company and its free reserve (that is to say reserve not set apart for any specific purpose) on such terms and conditions as the Board may consider necessary and expedient in their absolute discretion.

None of the Directors, Key Managerial Personnel (KMP) or their relatives is interested, financially or otherwise, in the proposed resolution, except to the extent of their shareholding, if any, in the Company.

Exceptional items- Prior period expenses	0.00	0.00	0.00	0.00
Net Profit Before Tax	1930.65	1307.11	1968.46	1275.88
Less: Tax Expenses				
Current Tax	501.80	335.02	501.79	335.02
Deferred Tax Asset	6.20	4.51	61.49	4.51
Net Profit After Tax	1435.05	976.61	1405.18	945.37
Share Of Profit/ (Loss) Of Associates	0.00	0.00	0.00	0.00
Net Profit after share of profit of Associates	1435.05	976.61	1405.18	945.37
Earnings Per Share	8.48	7.23	8.31	7.00

3. Financial Performance (Standalone)

On a standalone basis, your Company reported revenue from operations and other income of **₹17,149.08 lakhs** during the year under review, as against **₹10,013.60 lakhs** in the previous financial year. The Net Profit before tax for the year stood at **₹1930.65 lakhs** compared to **₹1307.11 lakhs** in the previous year. The Net Profit for the year stood at **₹1435.05 lakhs** compared to **₹976.61 lakhs** in the previous year. The Earnings Per Share (EPS) from continuing operations was **₹8.48** for the reporting year compared to ₹ 7.23 in the previous year, representing a year-on-year growth of 17.29%.

On a Consolidated basis, your Company reported revenue from operations and other income of **₹16.135.04 lakhs** during the year under review, as against **₹9,132.68 lakhs** in the previous financial year. The Net Profit before tax for the year stood at **₹1968.46 lakhs** compared to **₹1275.88 lakhs** in the previous year. The Net Profit for the year stood at **₹1405.18 lakhs** compared to **₹945.37 lakhs** in the previous year. The Earnings Per Share (EPS) from continuing operations was **₹8.31** for the reporting year compared to ₹ 7.00 in the previous year, representing a year-on-year growth of 18.71%.

4. Operational Highlights

The operations are exhaustively discussed in the ‘Management Discussion and Analysis’ forming part of the annual report.

5. Dividend and Transfer to Reserve

In order to conserve the resources, your Board has decided not to declare any final dividend for the financial year 2025-26. Your Company does not propose to transfer amounts to the general reserve out of the amount available for appropriation.

As per Regulation 43A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, top five hundred listed entities based on market capitalization are required to formulate a Dividend Distribution Policy. However, during the year your company has remained to be a small cap company and hence this regulation does not apply to the Company.

6. Share Capital:

The authorized share capital of the company was Rs. ₹21,00,00,000/- (Rupees Twenty-One Crores Only) divided into 2,10,00,000 (Two Crore Ten Lakh) equity shares of Rs. 10/- (Rupees Ten Only) As on March 31st , 2026

Particulars of Energy Conservation, Research and Development Technology Absorption and Foreign Exchange Earnings and Outgo

(Particulars pursuant to the Rule 8(3) Companies (Accounts) Rules, 2014)

- A.** I) Steps taken or impact on conservation of energy: The Company has prioritized energy conservation, consistently striving to enhance energy performance each year. We are dedicated to reducing energy consumption across all operations and activities. By regularly monitoring energy-related parameters, maintaining plant and machinery, installing automated systems, and ensuring vigilant supervision, we have successfully lowered our energy usage. Additionally, we take prompt action to replace any defective or inefficient equipment as needed.

II) Steps taken by the company for utilizing alternate sources of energy:

The Company has taken significant steps toward sustainable energy utilization by installing a 50-kW rooftop solar power plant at its office premises, which supports electricity requirements through renewable sources and contributes to the generation of green energy. In addition to this initiative, the Company has also installed a Diesel Generator (DG) Set at its premises to ensure uninterrupted power supply by providing backup during any disruption in the regular electricity supply.

III) Capital investment on energy conservation equipment: During the current financial year, the Company has not incurred any major capital expenditure on energy conservation equipment except maintenance capex.

B. Technology Absorption:

I) Efforts made towards technology absorption:

The Company is conducting in-house research to develop new and improved products while enhancing the quality of existing ones.

To achieve better production and efficient resource utilization, the Company is utilizing advanced technology machines

II) Benefits derived like product improvement, cost reduction, product development or import substitution: •

Improved product quality.

Improvement in productivity and cost reduction

III) In case of imported technology (imported during the last three years reckoned from the beginning of the financial year): No new technologies were imported during the last three years, however few machineries were imported during the said period.

IV) Expenditure incurred on Research and Development: Not Applicable

- C. Foreign Exchange Earnings & Outgo:** There was no foreign exchange earnings or outgo, during the financial year 2025-26.

Form No. MR-3

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2026

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,

The Members,

CURRENT INFRAPROJECTS LIMITED

A-27, Basant Vihar, Vaishali Marg (West),

Panchyawala, Jaipur, Rajasthan,

India, 302034

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by CURRENT INFRAPROJECTS LIMITED (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We here by report that in our opinion, the company has, during the audit period covering the financial year ended on March 31, 2026 (hereinafter referred to as "Audit Period") complied with the statutory provisions listed here under and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2026, according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the rules made thereunder;
 - ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
 - iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
 - iv. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
 - v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018; #
 - d. The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulation, 2021; #
 - e. The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021; #
 - f. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; #
 - g. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021; #
 - h. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018; # and
 - i. The Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018;
- # The Regulations or Guidelines, as the case may be, were not applicable for the period under review.

We have also examined compliance with the applicable clauses of the following:

- i. Secretarial Standards issued by The Institute of Company Secretaries of India;
- ii. The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above, to the extent applicable.

Standalone Financial Statements

Independent Auditor’s Report

TO
THE MEMBERS OF
CURRENT INFRAPROJECTS LIMITED
(Formerly known as Current Infraprojects Private Limited)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINION

We have audited the financial statements of **CURRENT INFRAPROJECTS LIMITED** (“the Company”), which comprise the Balance Sheet as at 31st March 2026, and the Statement of profit and loss and Statement of Cash Flows for the year ended, and Notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2026 and its profit and its cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

OTHER MATTER

The company has various Project Site offices throughout India, whose financial transactions are included in the Financial Statements of the Registered Office and duly audited by us for the Year ended on 31st March 2026.

OTHER INFORMATION

The Company’s Board of Directors is responsible for the other information. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon on such information.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE FINANCIAL STATEMENTS

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 (“the Act”) with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company’s financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. Paragraph 41(b) of this SA explains that the shaded material below can be located in an Appendix to the auditor's report. Paragraph 41(c) explains that when law, regulation or applicable auditing standards expressly permit, reference can be made to a website of an appropriate authority that contains the description of the auditor's responsibilities, rather than including this material in the auditor's report, provided that the description on the website addresses, and is not inconsistent with, the description of the auditor's responsibilities below.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

- i. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- ii. As required by Section 143(3) of the Companies Act 2013, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The reports on the accounts of the Head Office and financial transactions of the Project Site Offices of the company audited under section 143(8) of the Act by us and have been properly dealt with by us in preparing this report.
 - d. The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

- e. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- f. On the basis of the written representations received from the directors as on 31st March 2026 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2026 from being appointed as a director in terms of Section 164(2) of the Act.
- g. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
- h. With respect to the matter to be included in the Auditors' Report under section 197 (16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of limit laid down under section 197 of the Act.

- i. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has pending litigations which is disclosed in Emphasis of Matter as Note no. 30(b). It may impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. The company is not required to transfer any amount to the Investor Education and Protection Fund account.
 - iv. a. The Management has represented that, to the best of its knowledge and belief, no funds which are material either individually or in the aggregate have been advanced or loaned or invested either from borrowed funds or share premium or any other sources or kind of funds by the Company to or in any other person or entity, with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
b. The Management has represented, that, to the best of its knowledge and belief, no funds which are material either individually or in the aggregate have been received by the Company from any person or entity, with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security, or the like on behalf of the Ultimate Beneficiaries.
c. Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) as mentioned under (a) and (b) above, contain any material misstatement.
 - v. The Company has not declared or paid any dividend during the year and has not proposed final dividend for the year.
 - vi. The company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has been operated throughout the year for all transactions recorded in the software and the audit trail feature has not been tampered with as stated by the management and the audit trail has been preserved by the company as per the statutory requirements for record retention.

Annexure A

To The Independent Auditor’s Report

The Annexure A referred to in point 1 of paragraph “Report on Other Legal and Regulatory Requirements ”of the Independent Auditors’ Report to the members of the Company on the financial statements for the year ended 31st March 2026:

i. In Respect of Property, Plant and Equipment:

- a.

i. The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant & Equipment.

ii. The company has maintained proper records showing full particulars of intangible assets.
- b. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular program of physical verification of its Property, plant and equipment by which all Property, plant and equipment are verified in a phased manner over a period of a year. In accordance with this program, certain Property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- c. According to the information and explanations given to us and the records examined by us, the Company does not hold any immovable property in the form of Land. Accordingly, the provisions of clause 3(i)(c) of the Order are not applicable.
- d. According to the information and explanations given to us and the records examined by us, the Company has not revalued its Property, Plant and Equipment and Intangible assets during the year. Accordingly, the provisions of clause 3(i)(d) of the Order are not applicable.
- e. According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

ii. In Respect of Inventories:

- a. The Inventories have been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable having regard to the size of the company and the nature of its business. As explained to us, no material discrepancies were noticed on verification between the physical stocks and the books records.
- b. According to the information and explanations provided to us, during the year, the Company has been sanctioned working capital or working capital limits in excess of five crore rupees, in aggregate from banks or financial institutions on the basis of security of current assets and returns / statements filed by the company are in agreement with the books of accounts.

iii. In Respect of Loan, Investment, Guarantees, Securities and Advances in nature of loan:

- a. According to the information and explanations given to us, the company has made investment in 4 Subsidiaries, provided corporate guarantee to 3 Subsidiaries for the Term Loan taken by them, and granted long-term unsecured loans to 4 subsidiaries company.

(A) The information relating to investments made and loans and advances granted to its subsidiaries is as follows:

During the year, the Company has made investments and Guarantees Given in its subsidiaries, details of which are as under:

Amount in ₹ Lakhs

Investments	Opening Balance	Investment during the year	Closing Balance	Guarantees Given to SBI
Current Infra Bolnada Solar Private Limited	1.00	98.99	99.99	700.00
Current Infra Dhanbad Solar Private Limited	1.00	558.00	559.00	0
Current Infra Ompura Solar Private Limited	1.00	98.99	99.99	700.00
Current Infra Talabera Solar Private Limited	99.99	-	99.99	700.00

During the year, the company has provided following loans and advances in the nature of loans to its subsidiaries:

Amount in ₹ Lakhs

Loans & Advances in the nature of Loan	Opening Balance	Loan/Interest Accrued during the year	Closing Balance
Current Infra Bolnada Solar Private Limited	210.73	18.27	229.00
Current Infra Talabera Solar Private Limited	210.79	18.27	229.06

(B) The Company has provided loans or advances in the nature of loans to 5 parties other than its subsidiaries. Accordingly, the provisions of clause 3(iii)(a)(B) of the Order are applicable.

Amount in ₹ Lakhs

Loans & Advances in the nature of Loan	Opening Balance	Loan during the year	Closing Balance
Loans and Advances to Others	0	300.02	300.02

- b. According to the information and explanations given to us loan provided and the terms and conditions of the grant of all loans and advances in the nature of loans provided are not prejudicial to the company's interest.
- c. According to the information and explanations given to us, in respect of Loans and Advances in Nature of Loans given to Subsidiaries Companies , there will not be Repayment of principal loan till the currency of SBI loan to 3 subsidiaries and Interest shall be accounted for monthly basis . In Case of Other than Subsidiaries Loans given and the terms and conditions of the grant of unsecured loans , prima facie, not prejudicial to the interest of the Company. The loans have been granted to 4 subsidiary companies for development of solar projects classified under Tangible assets. Repayment of principal is stipulated to commence after repayment of the term loans obtained by the subsidiaries from banks, and the interest accrued during the construction period has been capitalized.
- d. According to the information and explanations given to us, in respect of loans granted to 4 subsidiary companies for development of solar projects under Tangible assets, the schedule of repayment of principal has not yet commenced as per the terms of arrangement and, accordingly, there are no overdue amounts in respect of such loans as at the balance sheet date.
- e. According to the information and explanations given to us, in respect of loans granted to 4 subsidiary companies for development of solar projects under Tangible assets, no amount of principal has fallen due during the year. Accordingly, there has been no renewal or extension of loans or granting of fresh loans to settle overdue amounts of existing loans.
- f. According to the information and explanations given to us, the Company has granted unsecured loans to its subsidiary companies amounting to Rs. 760.50 Lakhs, which are repayable based on the terms and conditions linked with repayment of bank loans availed by the subsidiaries. The aggregate amount of such loans represents 100% of the total loans granted to related parties as defined under Section 2(76) of the Companies Act, 2013.

iv. In Respect of section 185 and 186:

In our opinion and according to the information and explanation given to us, the company has granted unsecured loans to its subsidiaries and made Investment in Subsidiaries and acted as corporate guarantor to its subsidiaries also, the company has given security deposit to director for office building. So provisions of section 185 and 186 of the Companies Act, 2013 are Complied with act.

v. In Respect of Deposits:

In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits during the year, had no unclaimed deposits at the beginning of the year and there are no amounts which are deemed to be deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.

vi. In Respect of Cost records:

To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under section 148(1) of the companies Act, 2013, for the Electrical products and services of the company. Accordingly, the provisions of clause 3(vi) of the order are not applicable.

vii. In Respect of Statutory Dues:

- a. According to the information and explanations given to us and on the basis of our examination of the record of the company, undisputed statutory dues including Provident Fund, Income tax, Goods and Services Tax, Cess, Tax Deducted at source under Income Tax and other material statutory dues have been regularly deposited during the year by the company with the appropriate authorities.
- b. According to the information and explanations given to us and based on our examination of the records of the Company, there are no statutory dues referred to in sub-clause (a) which have not been deposited on account of any dispute, except for the following:

Name of Statute	Nature of Dues	Amount (Rs.)	Period to which amount relates	Forum where dispute is pending

Annexure B

To The Independent Auditor's Report

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of Current Infraprojects Limited ("the Company") as of 31st March 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes

To the standalone financial statements for the year ended March 31, 2026

Note A: Significant Accounting Policies

I. Basis of preparation of Financial Statement:

i. Accounting Policies

The entity followed three accounting concepts - going concern, consistency and accrual. The financial statements are prepared under the historical cost convention and in accordance with the accepted accounting standards. Expected losses or market-to-market losses are not recognized unless permitted. Accounting policies are not changed without a reasonable cause. Although these estimates are based upon management best knowledge of current event & actions, accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of the changes in circumstances surrounding the estimates. Changes in estimates are reflected in financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to accounts to Financial Statements.

ii. Valuation of Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

The stock of Work-in-progress is valued on estimated cost basis and finished goods of the business have been valued at the lower of cost and net realizable value. The cost has been measured on the actual cost basis and includes cost of materials, custom duty and cost of conversion to its present location and conditions. All other inventories of stores, consumables, and raw materials are valued at landed cost. The stock of scrap is also valued at realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Stock - in- Transit is valued at cost.

iii. Construction Contract

Construction contracts are not applicable on the entity as company is not doing business of construction.

iv. Revenue Recognition

The company/group follows the mercantile system of accounting and recognizes income and expenditure on accrual basis as a going concern. Revenue from consultancy services is recognized when the sole or final act takes place and the service becomes chargeable as per contract agreement. Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company/group and the revenue can be reliably measured. Rental Income has been duly accounted for in the books of accounts as per Rent Agreement between the parties. Dividend from investment is recognized on received basis. Insurance claim is recognized on receipt basis.

v. Property, Plant & Equipment

(a) Tangible Assets

Fixed assets are stated at their original cost of acquisition less accumulated depreciation and impairment losses. Cost comprises of all costs incurred to bring the assets to their location and working condition and includes all expenses incurred up to the date till available for use.

Subsequent expenditure related to an item of fixed assets is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gain or losses arising from derecognition of fixed assets are measured as the difference between net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit & loss when the asset is derecognized.

(b) Intangible Assets

Intangible Assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase/completion is recognized as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of asset.

Notes

To the standalone financial statements for the year ended March 31, 2026

(c) Depreciation and Amortization:-

Fixed assets are stated at cost less depreciation. Cost of acquisition is inclusive of freight, duties and other incidental expenses. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Salvage Value of the assets has been taken @ 5% of Original Cost as prescribed in Schedule II. Depreciation on additions during the year is calculated on pro rata basis.

(d) Impairment of Assets

An asset is considered as impaired in accordance with Accounting Standard 28 on Impairment of Assets when at balance sheet date there are indications of impairment and the carrying amount of the asset, or where applicable the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the asset's net selling price and value in use). The carrying amount is reduced to the recoverable amount and the reduction is recognized as an impairment loss in the Statement of profit and loss.

vi. Foreign Currency Transaction

Transactions in foreign currency are recorded at the rate of exchange in force on the date of the transactions. Current assets, current liabilities and borrowings denominated in foreign currency are translated at the exchange rate prevalent at the date of Balance Sheet. The resultant gain or loss is recognized in the Statement of profit and loss.

vii. Government Grants

Grants are accounted as per AS 12. The Grant received for Plant and Machinery has been adjusted from the Cost of Machinery.

viii. Securities

The company has not acquired any securities in exchange of any fixed asset. Also securities are not held as stock in trade.

ix. Borrowing Cost

Borrowing costs include interest, fees and other charges incurred in connection with the borrowing of funds. Borrowing costs that are attributable to the acquisition/construction of qualifying assets are capitalized as part of the cost of such asset up to the date when the asset is ready for its intended use. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to Statement of profit and loss. There is no borrowing cost during the year.

x. Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised for liabilities that can be measured only by using substantial degree of estimation, if the Company has a present obligation as a result of past event, a probable outflow of resources is expected to settle the obligation and the amount of the obligation can be reliably estimated. Contingent liability is disclosed in case of a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation, a present obligation arising from past events, when no reliable estimate is possible and a present obligation arising from past events, when the probability of outflow of resources is not remote.

Contingent Assets are neither recognized nor disclosed. Provisions & contingent liabilities are reviewed at each Balance Sheet date.

II. Taxes on Income

Income Tax expense for the year comprises current tax and deferred tax. Provision for current tax is made on the basis of the assessable income at the tax rate applicable to the relevant assessment year.

The deferred tax results from "timing difference" between taxable and accounting income is accounted for using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets and liabilities are offset if such items relate to taxes on Income levied by the same governing tax laws and the company has a legally enforceable right for such set-off. The deferred tax asset is recognized and carried forward only to the extent that there is a virtual certainty that the asset will be realized in future as per AS 22.

The deferred tax results from "timing difference" between taxable and accounting income is accounted for using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets and liabilities are offset if such items relate to taxes on Income levied by the same governing tax laws and the company has a legally enforceable right for such set-off. The deferred tax asset is recognized and carried forward only to the extent that there is a virtual certainty that the asset will be realized in future as per AS 22.

III. Cash Flow Statement

Cash Flow Statement is prepared in accordance with the indirect method prescribed in Accounting Standard (AS) 3 on 'Cash Flow Statements'

Notes

To the standalone financial statements for the year ended March 31, 2026

IV. Leases

Where the Company is the lessee

Lease where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Lease Rentals with respect to assets taken on 'Operating Lease' are charged to the Statement of profit and loss on a straight line basis over the lease term.

Leases which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item are classified as finance lease. Assets acquired on 'Finance Lease' which transfer risk and rewards of ownership to the Company are capitalized as assets by the Company at lower of fair value of the leased property or the present value of the minimum lease payments.

Amortization of capitalized leased assets is computed on the Written Down Value method as per rate envisaged in Schedule II to the Companies Act, 2013. Lease rental payable is apportioned between principal and finance charge using the internal rate of return method. The finance charge is allocated over the lease term so as to provide a constant periodic rate of interest on the remaining balance of liability.

Where the Company is the lessor

Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets.

Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

V. Employees benefit

a. Defined Contribution Plan

Contributions as per the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 towards provident fund and pension fund are charged to the Statement of Profit and Loss for the year when the contributions to the respective funds are due.

b. Defined Benefits Plan

Retirement benefits in the form of Gratuity are considered as defined benefit obligations and are provided on the basis of the actuarial valuation.

Liability towards Leave Entitlement Benefit is not provided by the company/group. As stated by the management that leaves accrued in a year lapses automatically if not availed.

VI. Investments

Investments are classified as long term or current based on intention of the management at the time of purchase.

Initially investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges. Dividend re-invested in case of mutual funds is added to the value of investment in mutual funds while corresponding credit is recorded in the Statement of Profit and Loss.

Current investments are carried in the financial statements as per AS-13. Long-term investments are stated at cost..

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit & Loss.

Notes

To the standalone financial statements for the year ended March 31, 2026

VII. Earnings Per Share

The Company reports basic and diluted Earnings per Share (EPS) in accordance with Accounting Standard - 20 on Earnings per Share. Basic EPS is computed by dividing the net profit or loss for the year by the weighted average number of Equity shares outstanding during the year. Diluted EPS is computed by dividing the net profit or loss for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all dilutive potential equity shares, except where the results are anti-dilutive.

VIII. IPO Expenses

The company got listed at SME NSE Emerge Platform. Expense related to IPO Expense and Issue of Shares under the Companies Act 2013 have been expensed out of Securities Premium Reserve of the Company.

Consolidated Financial Statements

Independent Auditor’s Report

TO
THE MEMBERS OF

CURRENT INFRAPROJECTS LIMITED
(Formerly known as Current Infraprojects Private Limited)

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

OPINION

We have audited the accompanying Consolidated Financial Statements of **CURRENT INFRAPROJECTS LIMITED** (the Holding Company) and its **Subsidiaries Current Infra Bolnada Solar Private Limited, Current Infra Ompura Solar Private Limited, Current Infra Talabera Solar Private Limited and Current Infra Dhanbad Solar Private Limited** (together referred to as the Group), which comprise the Consolidated Balance Sheet as at 31st March 2026, and the Consolidated Statement of Profit and Loss, and the Consolidated Statement of Cash Flows for the year then ended, and Notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31st March 2026, and their consolidated profit and their consolidated cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Consolidated Financial Statements.

OTHER MATTER

The company has various Project Site offices throughout India, whose financial transactions are included in the Consolidated Financial Statements of the Registered Office and duly audited by us for the Year ended on 31st March 2026.

OTHER INFORMATION

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the Consolidated Financial Statements and our auditor's report thereon. Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act.

Annexure A

To The Independent Auditor’s Report

The Annexure A referred to in point 1 of paragraph “Report on Other Legal and Regulatory Requirements ”of the Independent Auditors’ Report to the members of Current Infraprojects Limited on the Consolidated financial statements for the year ended 31st March 2026:

In respect of Consolidation:

According to the information and explanations given to us, in respect of the companies incorporated in India and included in the consolidated financial statements, the CARO report relating to them has been issued by their auditors with no qualifications or adverse remarks.

Annexure B

To The Independent Auditor's Report

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of Current Infraprojects Limited ("the Holding Company") and its Subsidiaries Current Infra Bolnada Solar Private Limited, Current Infra Ompura Solar Private Limited , Current Infra Talabera Solar Private Limited and Current Infra Dhanbad Solar Private Limited (the Holding Company and its subsidiaries together referred to as the "Group") as of 31st March 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

OPINION

In our opinion, the Holding Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Subsequently, company is converted into Public Limited Company vide special resolution passed by our shareholders at the Extra Ordinary General Meeting held on February 18th, 2025, and the name of the company was changed to Current Infraprojects Limited pursuant to issuance of Fresh Certificate of Incorporation dated March 6th, 2025, by Registrar of Companies, Jaipur. The Corporate Identification Number of our company is L42900RJ2013PLC044719 The company has also established four subsidiaries Current Infra Bolnada Solar Pvt. Ltd with 99.99% shareholding, Current Infra Ompura Solar Pvt. Ltd. with 99.99% shareholding, Current Infra Talabera Solar Pvt. Ltd. with 99.99% shareholding and Current Infra Dhanbad Solar Pvt. Ltd. with 99.99% shareholding in the financial year 2024-25 whose financials are consolidated.

I. Basis of preparation of Financial Statement:

i. Accounting Policies

The entity followed three accounting concepts - going concern, consistency and accrual. The Consolidated Financial Statements are prepared under the historical cost convention and in accordance with the accepted accounting standards. Expected losses or market-to-market losses are not recognized unless permitted. Accounting policies are not changed without a reasonable cause. Although these estimates are based upon management best knowledge of current event & actions, accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of the changes in circumstances surroundings the estimates. Changes in estimates are reflected in Consolidated Financial Statements in the period in which changes are made and, if material, their effects are disclosed in the notes to accounts to Consolidated Financial Statements.

ii. Valuation of Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

The stock of Work-in-progress is valued on estimated cost basis and finished goods of the business have been valued at the lower of cost and net realizable value. The cost has been measured on the actual cost basis and includes cost of materials, custom duty and cost of conversion to its present location and conditions. All other inventories of stores, consumables, raw materials are valued at landed cost. The stock of scrap is also valued at realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Stock - in- Transit is valued at cost.

iii. Construction Contract

Construction contract is not applicable on the entity as company is not doing business of construction.

iv. Revenue Recognition

The company/group follows the mercantile system of accounting and recognizes income and expenditure on accrual basis as a going concern. Revenue from consultancy services is recognized when the sole or final act takes place and the service becomes chargeable as per contract agreement. Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company/group and the revenue can be reliably measured. Rental Income has been duly accounted for in the books of accounts as per Rent Agreement between the parties. Dividend from investment is recognized on received basis. Insurance claim is recognized on receipt basis.

v. Property, Plant & Equipment

(a) Tangible Assets:-

Fixed assets of Holding Company are stated at their original cost of acquisition less accumulated depreciation and impairment losses. Cost comprises of all costs incurred to bring the assets to their location and working condition and includes all expenses incurred up to the date till available for use.

Notes

To the consolidated financial statements for the year ended March 31, 2026

Subsequent expenditure related to an item of fixed assets is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred. Gain or losses arising from derecognition of fixed assets are measured as the difference between net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit & loss when the asset is derecognized.

(b) Intangible Assets

Intangible Assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase/completion is recognized as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of asset.

(c) Depreciation and Amortization:-

Fixed assets of the Holding Company are stated at cost less depreciation. Cost of acquisition includes freight, duties and other incidental expenses. Depreciation is provided on the Written Down Value (WDV) method based on the useful lives prescribed under Schedule II to the Companies Act, 2013. Salvage value of the assets has been considered at 5% of the original cost and depreciation on additions/disposals is provided on a pro-rata basis.

The Subsidiary Company has adopted the Straight Line Method (SLM) for depreciation on its Solar Power Plant assets in accordance with Schedule II to the Companies Act, 2013, considering a useful life of 25 years and residual value of 5% of the original cost. Since the solar power plant generates uniform economic benefits over its useful life, the SLM appropriately reflects the pattern of consumption of the asset's economic benefits.

(d) Impairment of Assets

An asset is considered as impaired in accordance with Accounting Standard 28 on Impairment of Assets when at balance sheet date there are indications of impairment and the carrying amount of the asset, or where applicable the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the asset's net selling price and value in use). The carrying amount is reduced to the recoverable amount and the reduction is recognized as an impairment loss in the Statement of profit and loss.

vi. Foreign Currency Transaction

Transactions in foreign currency are recorded at the rate of exchange in force on the date of the transactions. Current assets, current liabilities and borrowings denominated in foreign currency are translated at the exchange rate prevalent at the date of Balance Sheet. The resultant gain or loss is recognized in the Statement of profit and loss.

vii. Government Grants

Government grants are accounted for in accordance with Accounting Standard (AS) 12 - Accounting for Government Grants. Grants related to specific fixed assets are presented in the Consolidated Financial Statements by deducting the grant from the gross value of the asset concerned. The grant is thus recognized in the Statement of Profit and Loss over the useful life of the depreciable asset by way of a reduced depreciation charge. Grants of a revenue nature are recognized in the Statement of Profit and Loss on a systematic basis over the periods necessary to match them with the related costs which they are intended to compensate. During the current year, the Subsidiary Company has received a government grant of Rs. 45.90 lakhs in relation to its Solar Power Plant assets. This grant has been directly adjusted against the gross cost of the related fixed assets and accordingly the carrying value of the assets has been reduced to that extent. As a result, depreciation on such assets is computed on the reduced carrying value over the remaining useful life of the assets.

viii. Securities

The company has not acquired any securities in exchange of any fixed asset. Also securities are not held as stock in trade.

ix. Borrowing Cost

Borrowing costs include interest, fees and other charges incurred in connection with the borrowing of funds. Borrowing costs that are attributable to the acquisition/construction of qualifying assets are capitalized as part of the cost of such asset up to the date when the asset is ready for its intended use. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to Statement of profit and loss. There is no borrowing cost during the year.

Notes

To the consolidated financial statements for the year ended March 31, 2026

x. Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised for liabilities that can be measured only by using substantial degree of estimation, if the Company has a present obligation as a result of past event, a probable outflow of resources is expected to settle the obligation and the amount of the obligation can be reliably estimated. Contingent liability is disclosed in case of a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation, a present obligation arising from past events, when no reliable estimate is possible and a present obligation arising from past events, when the probability of outflow of resources is not remote.

Contingent Assets are neither recognized nor disclosed. Provisions & contingent liabilities are reviewed at each Balance Sheet date.

II. Taxes on Income

Income Tax expense for the year comprises current tax and deferred tax. Provision for current tax is made on the basis of the assessable income at the tax rate applicable to the relevant assessment year.

The deferred tax results from "timing difference" between taxable and accounting income is accounted for using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets and liabilities are offset if such items relate to taxes on Income levied by the same governing tax laws and the company has a legally enforceable right for such set-off. The deferred tax asset is recognized and carried forward only to the extent that there is a virtual certainty that the asset will be realized in future as per AS 22.

III. Cash Flow Statement

Cash Flow Statement is prepared in accordance with the indirect method prescribed in Accounting Standard (AS) 3 on 'Cash Flow Statements'.

IV. Leases

Where the Company is the lessee

Lease where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Lease Rentals with respect to assets taken on 'Operating Lease' are charged to the Statement of profit and loss on a straight line basis over the lease term.

Leases which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item are classified as finance lease. Assets acquired on 'Finance Lease' which transfer risk and rewards of ownership to the Company are capitalized as assets by the Company at lower of fair value of the leased property or the present value of the minimum lease payments.

Amortization of capitalized leased assets is computed on the Written Down Value method as per rate envisaged in Schedule II to the Companies Act, 2013. Lease rental payable is apportioned between principal and finance charge using the internal rate of return method. The finance charge is allocated over the lease term so as to provide a constant periodic rate of interest on the remaining balance of liability.

Where the Company is the lessor

Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

V. Employees benefit

Provident Fund of the Regional Provident Fund Commissioner is a defined contribution scheme, and contribution made to Regional Provident Fund Commissioner is charged to Statement of profit & loss. Liability for Leave Entitlement Benefit is not provided by the Company. As stated by the management, leaves accrued in a year lapses automatically if not availed.

Notes

To the consolidated financial statements for the year ended March 31, 2026

VI. Investments

Investments are classified as long term or current based on intention of the management at the time of purchase.

Initially investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges. Dividend re-invested in case of mutual funds is added to the value of investment in mutual funds while corresponding credit is recorded in the Statement of Profit and Loss.

Current investments are carried in the Consolidated Financial Statements at lower of cost and fair value. Long-term investments are stated at cost. A provision for diminution is made to recognize a decline, other than temporary, in the value of long-term investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit & Loss.

VII. Earnings Per Share

The Company reports basic and diluted Earnings per Share (EPS) in accordance with Accounting Standard - 20 on Earnings per Share. Basic EPS is computed by dividing the net profit or loss for the year by the weighted average number of Equity shares outstanding during the year. Diluted EPS is computed by dividing the net profit or loss for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all dilutive potential equity shares, except where the results are anti-dilutive.

VIII. IPO Expenses

During the current year 2025-26, the Company has successfully completed its Initial Public Offering (IPO) of 52,25,600 Equity Shares of Rs. 10/- each at a premium of Rs. 70/- per share and its equity shares are listed on the stock exchange. Expenses incurred in connection with the IPO and listing process have been accounted for based on the nature of such expenditure and in accordance with the applicable provisions of the Companies Act, 2013 and relevant accounting standards.

Expenses directly attributable to the issue of fresh equity shares, including underwriting fees, professional charges, registrar fees and other share issue related expenses aggregating to Rs. 328.15 lakhs have been adjusted against the Securities Premium Reserve as per the provisions of Section 52 of the Companies Act, 2013. Other expenses relating to listing, regulatory compliances and activities not directly attributable to the issue of equity shares have been charged to the Statement of Profit & Loss.

*The Company has adopted the Straight Line Method of depreciation for its Solar Power Plant in accordance with Schedule II of the Companies Act, 2013, which prescribes a useful life of 25 years and a residual value of 5% of the original cost for Solar Power Generating Plants. As per the said Schedule, the annual depreciation rate under SLM works out to 4% per annum on the gross cost of the asset less salvage value. Since a solar power plant generates a uniform and consistent output of electricity throughout its operational life without any significant variation in its revenue-earning capacity from year to year, the Straight Line Method, which allocates an equal charge of depreciation in each accounting period, most appropriately reflects the pattern in which the asset's future economic benefits are expected to be consumed, as envisaged under Schedule II read with Section 123 of the Companies Act, 2013. Further, the adoption of SLM also provides an economic benefit to the Company, as the annual depreciation charge remains lower and uniform across the useful life of the asset at Rs. 64,29,228.96/- for FY 2025-26 on a Gross Block of Rs. 34,44,99,735.50/-, as compared to the Written Down Value method, which front-loads higher charges in the initial years. This ensures better profitability reporting, a healthier net worth, and a stronger financial position during the critical early years of operations when the Company's debt repayment obligations under the SBI Term Loan are higher.

**During the year, the Company has received a government grant of Rs. 45.90 lakhs, which has been directly adjusted against the cost of fixed assets and accordingly the carrying value of the related asset has been reduced to that extent
